12th Edition

JACKSON, MICHIGAN

Nurseries Located at "Primrose Wood" Three Miles North on M 50

WE SPECIALIZE on the desirable new and rare varieties of Hardy Plants and Alpines, as they make their appearance abroad or in this country.

We have listed many extremely rare plants in this edition, and still have many more under observation which will be offered to the garden lovers as soon as they become acclimated to American conditions and prove themselves worthy subjects.

We hope you will appreciate our efforts to give garden lovers the best obtainable; often secured from private sources, where years of patient toil and care have rewarded the grower.

Our plants are strong, vigorous stock, and, grown in our trying climate, we can assure their hardiness anywhere.

We are always glad to give all the assistance possible to our patrons, by giving them any information desired as to the especial requirements of any plant.

Our stock is all field-grown, insuring the strongest, healthiest constitution possible. This is the forerunner of certain success when transplanted to your garden. We do not advocate pot-grown plants for anything but the greenhouse.

We use the utmost care in shipping stock. Plants and shrubs are not dug and then left around to dry out; but each order is dug separately, put into receptacles filled with wet sphagnum moss, and brought immediately to the shipping room. Each plant is then wrapped in wet moss and oiled paper, that they may keep fresh from the start to the finish of their journey.

All of this is expensive; but it insures to the customer plants that are in good condition when received.

We would like to call attention to the fact that **ALL** plants require a thorough preparation of the soil if they are to thrive and make a vigorous growth.

Keep the **surface** of the soil **loose** by frequent stirring. If watering is done, water at least an hour in one place (using a fine spray) and then do not sprinkle there again for a week. Frequent

watering is worse than none at all as it induces the roots to come to the surface instead of striking down deep as they should.

WE MAKE ALL SHIPMENTS BY EXPRESS, CUSTOMERS TO PAY CHARGES, UNLESS OTHERWISE REQUESTED. If desiring shipment by PARCEL POST, add 10% extra for points west of the Mississippi.

THIS LIST NULLIFIES ALL PREVIOUS LISTS.

TERMS

Cash with order, unless it is desired to open an account with us. In that case, please send financial references.

No account opened for less than an initial order of \$10.00.

Not less than **three plants** of the same variety supplied at the dozen rate.

Attention

To encourage the use of plants in larger quantities and to discourage the planting of one plant of a variety, we have raised the price of a single plant, but have also offered three plants of a variety at the dozen rate, instead of six, as formerly.

We trust our customers will agree with us, that the practice of planting one plant of a variety is most undesirable from every standpoint.

Alpine Gardens

TO MANY the idea of a Rock Garden seems to be an exposition of stone. The real object of a Rock Garden is to enable one to grow in their own gardens the natives of the high mountains, where snows are deep and summers very short. To be sure, all plants grown in the rockery are not natives of the Alpine regions; but the great majority are, and while the beginner is apt to feel that this is a most difficult branch of gardening, it is only necessary to begin with the many easy subjects to find it not only comparatively simple but immensely fascinating as well, and a branch that opens up entirely new delights in gardening.

An Alpine garden should be an artistic expression of rock formation, conveying the idea of a drift or out-cropping of strata rock. Not uniform or regular but rather bold and so placed as to form a harmonious picture from all approaches.

The framing of this picture, or the background, should express the note of irregularity by varying heights, groupings and staging of trees and shrubs so they will co-ordinate with the feeling conveyed by the middle-ground.

The foreground, or detail, expressed in the vivid colors and association of dwarf conifers and shrubs, should be carefully considered. Harmony is attained when colors nearly related lead on from one to another, or are grouped together. But even contrasts become harmonious when they are perfectly true.

It is obvious, therefore, that the designer must know his subjects thoroughly; their time of bloom, color, type of foliage and form. Form and light should be the governing thought throughout the entire garden.

It is the popular belief that the building of an Alpine Garden is the easiest form of landscape work; whereas, it is decidedly the most difficult.

It may be of assistance if we give a few suggestions as to the construction of a Rock Garden. First of all, the drainage must be perfect, for no Alpine plant will survive a stagnant condition of the soil. If underground moisture can be supplied by means of minutely perforated pipe so much the better. This is to supply, in a small way, the melting snows, to which all Alpines are accustomed, and should be so arranged that the water can be turned off and on at will.

Contrary to common impression, Alpines require something besides ashes and tin cans upon which to grow. While they **do** require a very **stony** soil, they need **good soil** mixed with the stones; more or less, according to the subjects being planted.

We have found that a soil mixture consisting of one-half peat, one-fourth leaf mould and one-fourth clay loam is well adapted to the successful growth of nearly all Alpines.

All Alpines are deep rooting. This fact should never be forgotten and when building rockery, wall or bank, ample depth should be provided. It is a **deep, cool root run**, under the stones, that is required for success.

Next in importance, is a thorough ramming of the soil, to preclude the possibility of any air spaces. This one mistake is the cause of more failures in planting, IN ANY KIND OF A GARDEN, than any other one thing. THE SOIL CANNOT BE PACKED TOO TIGHT AROUND THE ROOTS. But in addition, THE SOIL MUST BE LOOSE ON TOP, that the rain may easily penetrate it, that the roots may breathe, and that there may be a mulch to keep the roots cool and moist.

Alpine plants need to be planted in masses of one kind to obtain good color effects. This applies to all garden planting, but to Alpines most of all, as they are so small.

A list of plants for special places will be found in the back of the catalog.

Landscape Department

We are prepared to design and execute Alpine Gardens, Herbaceous Borders, Naturalistic Rock Work, and the complete development of both large and small estates.

Being growers, we have the advantage of knowing the exact requirements of the different plants. This knowledge is absolutely essential to the attainment of best results in landscape composition.

Good staging of deciduous trees and evergreens, as well as Alpines and border plants, requires knowledge gained only through constant association with them during their growth and blooming periods. Opportunity is also afforded to study beautiful combinations not generally known.

Our men are skilled in planting, our prices are moderate, and we guarantee our work to give excellent results.

Our Mr. H. W. or H. C. Wolcott are ready at all times to advise prospective clients, for which service we make a nominal charge to cover traveling expenses and actual time consumed.

Alpine Plants

ACAENA (New Zealand Bur). Alpine plants belonging to the Rose family. Inconspicuous blossoms but having beautiful foliage. All the varieties are most useful for carpeting and thrive in almost any situation.

| | Each | Doz. |
|--|--------|--------|
| A. Buchanani . Prostrate with pale gray leaves. The flower heads have yellow bristles | \$0.50 | \$3.50 |
| A. caesia glauca . Beautiful carpeting plants with roselike foliage of soft grey-blue | .50 | 3.50 |
| A. microphylla . Charming foliage from rosy bronze to grey-blue. Studded with little round balls of bloom, like a crimson hedge-hog | .50 | 3.50 |
| A. novae-zealandiae . Stout, woody stock, creeping and silky foliage. Flower heads large and purplish | .50 | 3.50 |
| A. sanguisorbae . Less silky than the other varieties. Heads of bloom smaller, reddish purple | .50 | 3.50 |

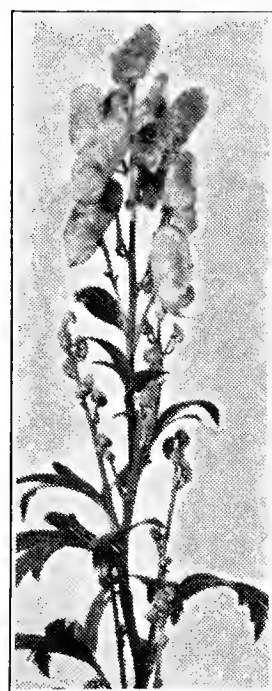

ACHILLEA (Milfoil or Yarrow). Well known rock plant, suitable for dry and sunny places.

| | Each | Doz. |
|---|--------|--------|
| A. ageratifolia . Tufted growth with silvery leaves and white flowers. Blooms in May and June. Fine for rockery. 3 in. ... | \$0.75 | \$5.00 |
| A. Clavennae . Compact tufts of silver foliage with a profusion of white flowers from July to September. Rockery | .75 | 5.00 |

| | Each | Doz. |
|---|--------|--------|
| A. tomentosa . Lovely silky foliage. Dwarf, compact habit. Brilliant yellow heads of bloom | \$0.75 | \$5.00 |

ACONITUM (Monkshood). Aconitums are very stately and beautiful plants for the hardy border. Exceedingly valuable on account of their late bloom as well as for planting in shade, as they will flourish even under trees. Thrive best in very rich soil and prefer not to be disturbed when once established.

| | Each | Doz. |
|---|--------|--------|
| A. Fischeri . Semi-dwarf variety with large, pale blue flowers. Commences to bloom in September | \$0.50 | \$3.50 |
| A. Sparks' Variety . Very dark blue. Blooms early | .50 | 3.50 |
| A. Wilsoni . Very handsome variety, introduced from China by Mr. Wilson. Large, violet-blue flowers from September until frost | .75 | 5.00 |

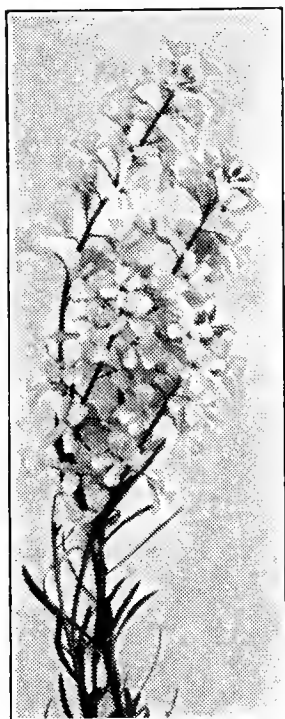

Aconitum Fischeri.

WOLCOTTS, LTD., JACKSON, MICHIGAN

AETHIONEMA (Lebanon Candytuft). Near relatives of the Candytuft, these very hardy little rock plants are of the most fascinating character. The foliage of most of them is a beautiful, glaucous blue; stems woody, and when covered with their heads of pink or white blossoms, make a picture not to be forgotten. They bloom from May to July. They are almost shrubby in habit and are improved by a slight cutting back after blooming. Stony, sandy loam is suitable for them and a warm sunny position. They also appreciate some lime in the soil.

| | Each | Doz. |
|---|--------|--------|
| A. amoenum. Very attractive, with blue-gray foliage and large heads of light pink blossoms. May | \$0.75 | \$5.00 |
| A. armenum. A gem of only three or four inches high, blue-gray leaves and charming pink blossoms in close heads | .75 | 5.00 |
| A. armenum var. Warleyensis. (New). A fine hybrid with brilliant rose colored flowers and glaucous blue foliage | .75 | 5.00 |
| A. creticum. Flowers light rose. Grows 6 to 8 inches high ... | .50 | 3.50 |
| A. coridifolium. Dwarf, bushy plant with bluish green foliage and dense heads of pink flowers. May | .75 | 5.00 |
| A. diastrophis. Beautiful and very choice variety. Close, tufted growth and unusually large, deep pink blossoms. May | .75 | 5.00 |
| A. grandiflorum. The giant of the race, reaching a height of 12 inches, with large and beautiful heads of rose colored bloom | .50 | 3.50 |
| A. pulchellum. Another beauty with very glaucous leaves and heads of rosy pink flowers. About six inches high. One of the best | .75 | 5.00 |
| A. schistosum. Forms a compact little plant with beautiful large pink blossoms | .50 | 3.50 |
| A. stylosum. A treasure from Lebanon, only 2 or 3 inches high. Foliage blue and large, rounded heads of clear pink blossoms | .75 | 5.00 |

**Aethionema
Grandiflorum.**

ALLIUM (Onion). Bulbous plants, with very attractive blossoms useful for the rock garden. If disturbed, roots have a very unpleasant odor. Each Doz.

| | | |
|---|--------|--------|
| A. Beesianum. Loose heads of large, china blue flowers on 9-inch stems. August and September | \$0.50 | \$3.50 |
| A. cernuum. Flowers pink on stems 9 to 12 inches. July | .50 | 3.50 |
| A. cyaneum. Erect, slender stems, 8 inches high. Nodding bells of bright blue. June. | .50 | 3.50 |
| A. pedemontanum (narcissiflorum). A gem for the rock garden. Large, pendent bells of rosy purple on stems 8 to 10 inches high. Will thrive in poor soil .. | .75 | 5.00 |
| A. Moly. Handsome, broad foliage. Golden flowers on 6-inch stems. June..... | .50 | 3.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

ALSINE (Alsine). Small, tufted plants, very close to *Arenaria*, with small flowers in great profusion. Very desirable for clothing the rocks.

| | Each | Doz. |
|---|--------|--------|
| A. Bauhinorum . A most beautiful dwarf Alpine, forming mats of fine green foliage, bearing an abundance of pure white flowers on slender 8-inch stems in July and August | \$0.50 | \$3.50 |
| A. juniperiana . Lovely tufts of fine, grey-green foliage and small white flowers in June | .35 | 2.50 |
| A. verna . Forms mats of deep green, mossy foliage covered with white stars on 3-inch stems. June-September | .35 | 2.50 |

ALYSSUM (Madwort). Beautiful, showy plants for rock work, bedding, etc. They like a sunny position and well drained soil.

| | Each | Doz. |
|---|--------|--------|
| A. alpestre . Prostrate, almost shrubby variety, hoary grey all over. Flowers pale yellow, in unbranched heads. Very early. | \$0.50 | \$3.50 |
| A. argenteum . Dense growth. Leaves silvery beneath, flowers yellow in clustered heads, all summer. About 15 inches . . . | .75 | 5.00 |
| A. Moellendorffianum . A most attractive variety from Bosnia. Very silvery foliage and heads of bright yellow flowers at the ends of the branches. June-August | .75 | 5.00 |
| A. saxatile citrinum . Very attractive variety with paler yellow flowers than the type | .35 | 2.50 |
| A. "Silver Queen" . A very beautiful variety from England. Masses of pale yellow blooms | .50 | 3.50 |
| A. serpyllifolium . Very dwarf, 4 to 5 inches high, with racemes of pale yellow flowers and rough, hoary leaves. Charming for the rock garden. Very rare. True variety | .50 | 3.50 |
| A. spinosum . A woody stemmed plant with silvery leaves and numerous small, yellow blossoms. About 6 inches high and very branching habit. A gem for the rock garden | .75 | 5.00 |
| A. spinosum roseum . A very choice rose colored form of the above. Very scarce | .75 | 7.50 |
| A. Wulfenianum . Lovely variety with silvery foliage and large blossoms of pale yellow in loose, showy head | .75 | 5.00 |

ANDROSACE (Rock Jasmine). Typical Alpines, most fascinating because of their great beauty. Some of them are reputed difficult to grow, their worst enemy being early spring rains. They require very gritty soil, the stones furnishing the cool moisture their roots enjoy. In sticky clay or hot, loose sand, they will soon dwindle and die. We have had great success in growing these, with no special care or preparation of soil.

| | Each | Doz. |
|--|--------|--------|
| A. brigantiaca . A variety of <i>A. carnea</i> . Foliage smooth and deep green. Flowers pink, in ample heads on stems 2 or 3 inches high. April | \$0.75 | \$7.50 |
| A. chamaejasme . Silver rosettes with blossoms opening pure white and fading to pale pink. Rare | .75 | 7.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|--------|
| ANDROSACE Chumbyi. Densely silky with glowing pink blossoms. Blooms profusely. Very choice | \$0.75 | \$7.50 |
| A. lactea. Glossy green foliage and loose heads of lovely white flowers with golden eye. Very hardy and vigorous | .75 | 7.50 |
| A. lanuginosa. One of the most beautiful. Trailing growth and soft, silvery foliage. The blossoms are soft lilac-rose, lasting nearly all the summer | .75 | 5.00 |
| A. primuloides. Rosettes of very silky foliage and heads of rosy lilac blossoms on stems 4 inches high. May | .75 | 5.00 |
| A. sarmentosa. One of the easiest and best. Rosettes of silky foliage and heads of verberna-like blossoms of pink on stems about 6 inches high. From the Himalayas. June-July | .75 | 5.00 |
| A. sempervivoides. Lovely relative of <i>A. sarmentosa</i> , with smooth foliage and deep pink flowers on 2-inch stems. June-July | .75 | 7.50 |
| A. vitaliana. Unlike most other <i>Androsaces</i> . Forms a prostrate mass of dark green foliage with flowers of clear gold. Very choice and very beautiful | .75 | 7.50 |
| A. Watkinsi. Smaller, condensed form of <i>A. sarmentosa</i> | .75 | 7.50 |
| A. yunnanensis. Silky rosettes, growing smooth with age. Delicate pink | .75 | 7.50 |
| ANEMONE (Windflower). Lovely, graceful Alpines, in most cases delighting in deep rich soil in full sun. | | |
| | Each | Doz. |
| A. alpina. Farrar terms this the "Great King of Glory." Snowy blossoms on 10-inch stems | \$0.75 | \$7.50 |
| A. alpina sulphurea. Cream-white to yellow form of the above. | .75 | 5.00 |

Anemone.

Anemone Pulsatilla.

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|--------|
| ANEMONE baldensis. A true Alpine Anemone. Prefers stony soil and perfect drainage. Large, single white blossoms, with golden center, on stems of 5 or 6 inches | \$0.75 | \$7.50 |
| A. Halleri. Lovely rich violet blossoms, all silky outside. Very choice | .75 | 5.00 |
| A. narcissiflora. Exquisite Alpine with silky foliage and delicate pink and white flowers, like an apple blossom | .75 | 5.00 |
| A. patens. Allied to the Pulsatillas. Large blossoms in varying shades of violet | .50 | 3.50 |
| A. pulsatilla (Pasque Flower). A fine plant for either rockery or border. Lovely violet cups filled with golden stamens. Well drained position in full sun. April-May | .35 | 2.50 |
| A. pulsatilla rubra. A variety with blossoms of deep, violet-red. | .35 | 3.00 |
| A. rivularis. A gem for a cool, moist position. Lovely white blossoms, with blue reverse, in summer. Very choice | .75 | 7.50 |
| A. rupicola. Lovely white blossoms, silky outside, on stems 10 to 12 inches high | .50 | 3.50 |
| A. sylvestris. Fine for cool, moist corner of rock garden or border. Large, white blossoms on nodding stems of about 12 inches. Very free blooming. May-June | .35 | 3.00 |
| A. vernalis (Lady-of-the-Snow). A rare and exquisite Alpine. Large, open flowers of pure white, flushed violet outside. Blooms very early. Easily grown in rich vegetable soil in full sun. Very choice | .75 | 5.00 |

ANTENNARIA (Cat's Ears).

| | Each | Doz. |
|---|--------|--------|
| A. dioica. Masses of silvery grey rosettes with heads of white blossoms on stems of 2 or 3 inches. May | \$0.50 | \$3.50 |
| A. dioica rosea. Very choice with heads of pink blossoms. May. | .75 | 5.00 |

ANTHYLLIS (Vetch).

| | Each | Doz. |
|--|--------|--------|
| A. montana carminea. Somewhat shrubby plant about one foot high with silky foliage and dense heads of red blossoms. Very easy culture and much prized for the rock garden. Much improved form of the type | \$0.75 | \$5.00 |

ANTIRRHINUM (Snapdragon). The ordinary Snapdragons are of too coarse growth to be admitted to the rock garden, but there are two or three species that are very charming for the rockery. A dry, sunny spot and well drained soil are essential to success.

| | Each | Doz. |
|---|--------|--------|
| A. Asarina. A trailing plant from the south of France with very attractive foliage and creamy white flowers. June | \$0.50 | \$3.50 |
| A. glutinosum. A charming variety of prostrate habit and small, grey-green foliage. Abundance of yellow and white flowers. | .50 | 3.50 |
| A. sempervirens. A beautiful trailing plant for the rock garden. Flowers white with purple blotch. June-July | .50 | 3.50 |

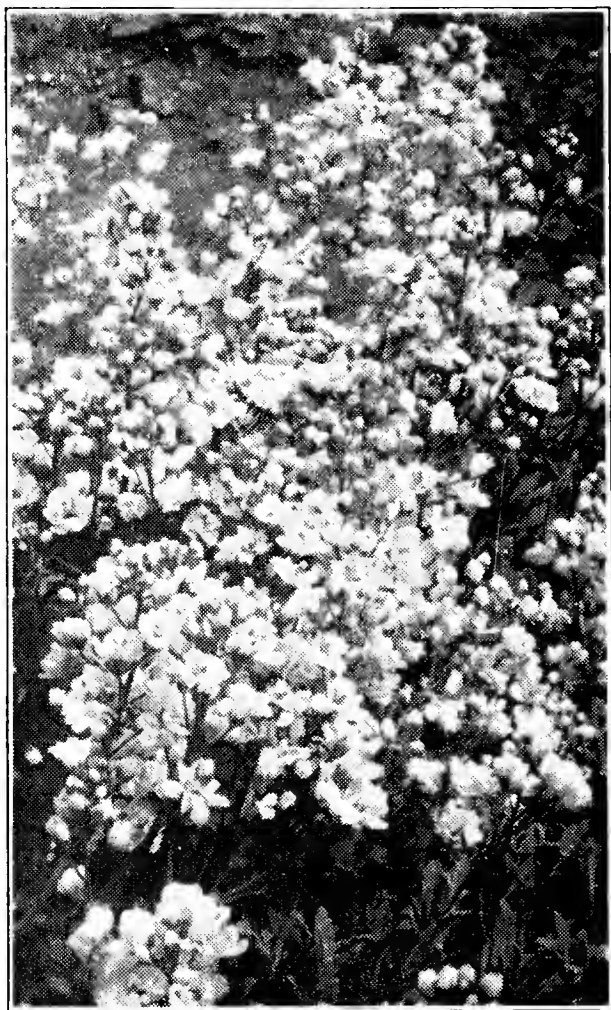

WOLCOTTS, LTD., JACKSON, MICHIGAN

AQUILEGIA (Columbine). The Aquilegias need no praise; they appeal to everyone by their grace and the beauty of their flowers, the colors of the new hybrids being particularly handsome. All the Columbines may be used on the rockery, but it is better to leave the larger species and their varieties to the border, although some of them are very attractive, when perched on some high spot. They thrive in shade or sun, but prefer a rich, well drained soil in partially shaded position. If not allowed to go to seed and not covered too heavily in winter, they will flourish for years and will not change their colors. Coal ashes put around the crown in the fall will help to prevent their decay.

| | Each | Doz. |
|--|--------|--------|
| A. alpina . A charming species from Switzerland and best suited to the rockery. Beautiful blue and white flowers. True variety very rare | \$0.75 | \$5.00 |
| A. caerulea . True. Lovely white and blue flowers | .35 | 2.50 |
| A. caerulea, Mrs. Nicholls . A fine novelty. The flowers are long spurred and immense size. Beautiful rich blue with white cup and golden anthers. 1 foot | .75 | 5.00 |
| A. canadensis . The native bright red and yellow Columbine .. | .35 | 2.50 |
| A. canadensis nana . Very dwarf form of our native Columbine. May | .35 | 2.50 |
| A. chrysantha . Bright yellow, long spurred flowers | .35 | 2.50 |
| A. flabellata nana . Very dwarf white variety. The first to bloom in spring. Fine for rockery or edging | .35 | 2.50 |
| A. jucunda . A beautiful variety (syn. glandulosa) with stems 2 feet high carrying large flowers of rich blue with white cup. Prefers rich soil. May | .50 | 3.50 |
| A. oxysepala . Dwarf and early flowering. Very attractive with flowers of blue and white with yellow centers. Very new .. | .75 | 5.00 |
| A. pyrenaica . A miniature A. alpina. Very handsome, about 1 foot high. May | .75 | 5.00 |
| A. Reuteri . Very rare and a lovely species from the Maritime Alps. Soft, clear blue flowers on stems a foot high. Succeeds in poor soil. June | .75 | 5.00 |
| A. "Rose Queen." Large flowers of rose-pink. Short spurs of the same color. 2 feet. June | .50 | 3.50 |
| A. "Silver Queen." New. A very beautiful variety raised in England. Large, elegant flowers with long spurs, white faintly tinged rosy sapphire. 2 feet | .50 | 3.50 |
| A. "White Lady." A beautiful variety of caerulea with white flowers and graceful foliage. 2 feet | .50 | 3.50 |
| A. Long-Spurred Hybrids . Selected from the finest long-spurred varieties obtainable in Europe; strains that have received the highest awards at the Royal Horticultural Shows in London. They range in color from cream-white to delicate lavender, blue, delicate pink, rose, deep purple and pure yellow. 2 feet | .25 | 2.00 |

Aquilegia Caerulea.

Arabis Alpina fl. pl.

ARABIS (Rock Cress). One of the most common of rock plants. Ordinary soil is suitable but they must have a sunny position. We offer the best of the many varieties.

| | Each | Doz. |
|---|--------|--------|
| A. albida. A very vigorous Rock Cress with grey leaves and countless spikes of white flowers nearly the whole summer . . . | \$0.35 | \$2.50 |
| A. alpina fl. pl. Double, pure white flowers in long spikes | .50 | 3.50 |
| A. arenosa. An attractive variety with white flowers in heads borne on slender stems of 8 to 10 inches | .35 | 2.50 |
| A. aubrietoides. A beautiful variety of Rock Cress, bearing a profusion of delicate pink flowers | .75 | 5.00 |
| A. procurrens. A dwarf spreader for cool rocks. Flowers white on long stems | .50 | 3.50 |
| A. rosea. Very dwarf species with an abundance of rose colored flowers | .50 | 3.50 |
| A. Sturi. A gem for the sunny rock garden. Forms cushions of glossy, dark green foliage. Large heads of white blossoms on stems 2 or 3 inches high | .75 | 5.00 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

ARENARIA (Sandwort). As their name implies, the majority of these plants do best in sand and full sun. Beautiful and of easy culture, they are most at home in the rock garden.

| | Each | Doz. |
|--|--------|--------|
| A. balearica . Creeping plant with dark green foliage and white blossoms. A gem for cool, shady places in the rockery, especially for clothing bare rocks | \$0.50 | \$3.50 |
| A. caespitosa . A close tufted plant of mossy growth, studded with white flowers all summer. Charming for the rock garden. | .35 | 2.50 |
| A. gracilis . Very new. Prostrate growth with deep green foliage and white blossoms. Fine for rock garden | .50 | 3.50 |
| A. laricifolia . Dainty white blossoms, freely produced on four-inch stems. Trailing growth | .35 | 3.50 |
| A. montana . Creeping variety, forming mounds of green which in early summer are covered with large white blossoms. Indispensable for the rockery | .35 | 2.50 |
| A. purpurascens . A gem for cool, moist portions of the rock garden. Dark green, tufted plants with blossoms of lilac-rose in July and August | .75 | 5.00 |

ARMERIA (Sea Pink or Thrift). Small perennials, with leaves in rosettes close to the ground. Very easy culture, preferring a sunny position in light soil.

| | Each | Doz. |
|---|--------|--------|
| A. alpina . From the Pyrenees, making a low growing clump covered for many weeks in early summer with soft pink heads of bloom | \$0.75 | \$5.00 |
| A. caespitosa vera . Very rare. Spiny leaves, forming very compact rosettes. Pink flowers. Rockery..... | .75 | 7.50 |
| A. cephalotes . Long, narrow foliage with heads of bloom of light rose color on long stems. Very attractive | .35 | 2.50 |
| A. cephalotes rubra . Flowers a deeper pink | .35 | 2.50 |

ARTEMISIA (Wormwood).

| | Each | Doz. |
|---|--------|--------|
| A. frigida . Silver-white foliage. Very lacy. 12 to 15 inches high | \$0.50 | \$3.50 |
| A. glacialis . Choice high Alpine with silvery white foliage and golden yellow flowers on stems of 4 or 5 inches. Tufted growth. June-July | .75 | 5.00 |
| A. lactiflora . Foliage very graceful, resembling an Astilbe. Flower stems from 3 to 4 feet high, bearing panicles of very fragrant, creamy white blossoms in July and September. A very useful border plant | .35 | 2.50 |
| A. mutellina . One of the choicest Alpines. Very beautiful silvery foliage with attractive yellow flowers on stems 6 or 8 inches high. Prefers granite. June-July | .75 | 5.00 |
| A. Silver King . Showy, white-leaved plant. 3 feet high | .35 | 2.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

ASTER (Starwort). Each Doz.

A. alpinus. Very effective plants for the rock garden or edge of hardy border. Bear large, showy purple flowers in May and June\$0.35 \$2.50

A. alpinus albus. A white form of the Alpine Aster35 2.50

A. alpinus himalaicus. More dwarf than the type and bearing a profusion of lilac-blue flowers. Very choice75 5.00

A. alpinus magnificus. Handsome variety with pure white flowers75 5.00

A. subcaerulea. A very handsome dwarf Aster. Tufted foliage, slightly hairy,

with large, solitary flowers of pale blue with golden centers, Each Doz.
making a most beautiful combination\$0.35 \$2.50

ASTILBE (Meadow Sweet). Invaluable plants for rich effects in the herbarceous border, rock garden and water garden. Extremely graceful foliage and very showy blossoms in July and August. Perfectly hardy, increasing each year, and only need to be assured plenty of moisture during the summer months.

Each Doz.

A. Ceres. Early flowering. Rosy lilac. 2½ to 3 feet\$0.60 \$4.00

A. Crepuscle. Blush pink60 4.00

A. Davidi. One of the best of the large Astilbes and particularly fine in boggy places, producing graceful plumes of rich crimson-purple with violet anthers. 4 to 5 feet50 3.50

A. Etna. Beautiful rose-pink blossoms75 5.00

A. Feerie. Flesh white in large panicles. 2 feet75 5.00

A. Gerbe d'Argent. White flushed pink75 5.00

A. Gloria. Brilliant, deep pink blossoms. Exceptionally fine .. 1.00 6.00

A. grandis. A fine species, growing five to six feet tall and bearing immense panicles of white flowers60 4.00

A. rubens. A recent introduction of great beauty, producing large panicles of the deepest rose color60 4.00

A. Queen Alexandra. Dwarf variety with light pink flowers.. .60 4.00

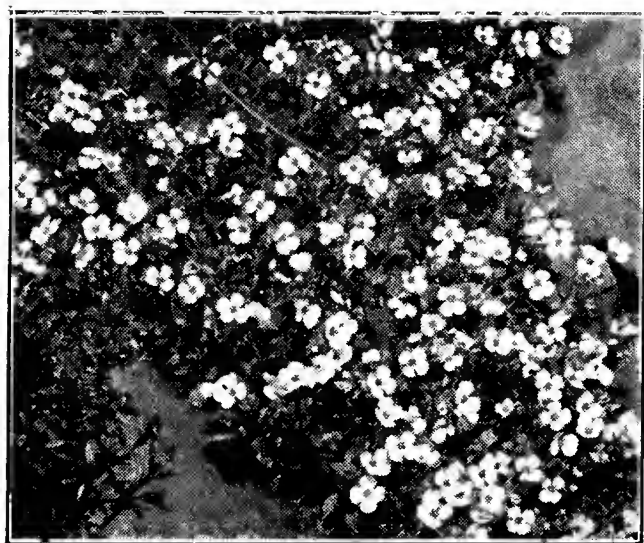

A. Salland. Very vigorous variety with bronzy red stems and distinct red blossoms60 4.00

Aster Subcaerulea.

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|--------|
| ASTILBE vesta. Lovely salmon-pink | \$0.60 | \$4.00 |
| A. simplicifolia. Beautiful dwarf variety from Japan. Panicles of white blossoms and attractive foliage. A gem for the Alpine garden. 9 inches | 1.00 | |
| ASTRAGALUS (Pea Flowers). A large family of plants belonging to the legumes. A few are of outstanding beauty. They require stony soil and full sun. They bloom in late summer, making them doubly valuable in the rock garden. | | |
| | Each | Doz. |
| A. danicus. Pealike foliage and purple blossoms from June to September. 4 inches high | \$0.50 | \$3.50 |
| A. monspessulanus. Considered one of the jewels of the family. Forms tufts of fernlike foliage. Loose spikes of wine-red flowers on dwarf stems in July | .60 | 5.00 |
| A. onobrychis. Makes lax tufts, some 18 inches across. Large purplish blue flowers in heads of bloom 18 inches high. July | .60 | 5.00 |
| AUBRIETIA (Wall Cress). The rock garden could ill afford to do without its wonderful masses of Aubrietia that give such a display of color during April and May and which are among the most easily grown and the most showy of all rock plants. They form spreading tufts and are seen at their best on some mound of soil or where they can fall from the top of a rockery wall. A light, loamy soil meets their requirements and after the flowers are over the plants should be cut back well, that the tufts may not become bare in the center. We offer the best of the new named varieties. | | |
| | Each | Doz. |
| A. Bridesmaid. Pale rosy blush | \$0.50 | \$5.00 |
| A. Cilicica. One of the best. Flowers large and freely produced. Lavender with white eye | .50 | 5.00 |
| A. Fire King. Glowing crimson. Very fine | .50 | 5.00 |
| A. H. Marshall. Rich deep mauve colored flowers; late | .50 | 5.00 |
| A. Leitchlini. Bright rose colored flowers | .50 | 5.00 |

Aubrietia.

Bellis.

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|--------|
| AUBRIETIA, Pritchard's A-1. New. Violet flowers; compact habit; one of the best | \$0.50 | \$5.00 |
| A. Selected Hybrids. From fine large flowered varieties, ranging in color from rose to carmine and from pale lavender to deep purple | .35 | 2.50 |
| BELLIS (Daisy). Nearly everyone is familiar with the common hardy Daisy, but the improved form of these delightful plants is a surprise to those who see them for the first time. The size of bloom has been increased until the choicer varieties are as large as small asters. Fine for edgings. | | |
| | Each | Doz. |
| B. monstrosum. A monster variety of the hardy English Daisy. Pure white. 6 inches | \$0.25 | \$2.00 |
| B. Pink Beauty. Deep pink, very handsome; 6 inches | .25 | 2.00 |
| B. alpinus (Alpine Daisy). A graceful, spreading plant, growing about six inches high and covered with dainty pink and white single flowers throughout the summer and autumn .. | .25 | 2.00 |
| B. coerulescens. An exceptionally dainty little plant, flowers white, tinted lilac. Requires warm site. Fine for rockery. 3 inches | .25 | 2.00 |
| BELLIUM bellidioeides. A dainty little miniature of the <i>Bellis perennis</i> , except that it throws out numerous runners and so forms a wide mat, covered in summer with small white Daisies. Fine for rockery | .50 | 3.50 |
| BOYKINIA rotundifolia. Very useful for cool, damp and shady places. Fine for waterside. The foliage is handsome and the flower stems are about two feet high, carrying heads of small, creamy white flowers | .75 | 5.00 |
| CAMPANULA (Bellflower). The Bellflowers are for the most part of a very elegant habit and beautiful appearance. The perennial varieties are all of great beauty, the taller ones being suitable for the border and very valuable as cut flowers, while the dwarfer sorts are well adapted for the front of borders and for rockeries. The most of the varieties are easily grown and unless otherwise specified, prefer a well drained, rather rich, sandy loam. Those adapted to rockery culture are among the choicest of perennial plants. | | |
| | Each | Doz. |
| C. alliariaefolia. Showy and choice Bellflower of pyramidal habit. The flowers are white, long tubed and hang in scores from one side of arching stems | \$0.35 | \$2.50 |
| C. barbata. So called because of the hairs inside the blooms. It requires a well drained soil, containing plenty of stones, and more sun than most of Bellflowers. The handsome pale blue flowers are produced from May to July, on stems about 6 inches high | .75 | 7.50 |
| C. barbata alba. A lovely white form of above | .75 | 7.50 |
| C. bellidifolia. Another beauty for the alpine garden. Rosettes of spoon-shaped leaves, covered with violet bells on stems of two or three inches | .75 | 7.50 |
| C. carpatica. The well known Carpathian Bellflower, blooming profusely nearly all summer. Fine for border or rockery. | .35 | 2.50 |
| C. carpatica nana. A dwarf and compact variety of the above. | .50 | 3.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|--------|
| CAMPANULA carpatica, Isabel. Very handsome variety of the Carpathian Bellflower, with large, flat saucers of a beautiful deep blue. 1 foot | \$0.50 | \$3.50 |
| C. carpatica, Riverslea. A dwarf tufted plant, bearing large, flat, saucer-shaped flowers of a pale blue, on slender stems, about 1 foot high | .50 | 3.50 |
| C. carpatica, White Star. An extra large and selected variety of the Carpathian Harebell. Pure white flowers, freely produced | .50 | 3.50 |
| C. collina. A glorious Campanula from the highest ranges of the Caucasus. Tufted growth with graceful, purple blossoms on stems about 1 foot high, in June. Very choice .. | .75 | 7.50 |
| C. garganica. A gem for the rock garden. Forms a low, spreading tuft which in June is covered with starry, light blue flowers having a white eye. Exquisite hanging over a rock. | .50 | 3.50 |
| C. garganica, W. H. Paine. Improved form of this charming Italian Bellflower. Large, bright violet flowers with white center. More upright in habit than type. A striking plant. | .75 | 5.00 |
| C. glomerata dahurica. Large heads of purple flowers. Fine for the border. 2 feet | .35 | 2.50 |
| C. lactiflora alba magnifica. A beautiful variety from the Imperial Gardens of Petrograd, producing spikes 6 feet high, bearing large, snowy white flowers. New and choice. The true variety | .75 | 5.00 |
| C. latifolia, Brantwood. A dwarf variety, only reaching a height of 2 feet. Very large, dark blue bells on sturdy stems. | .50 | 3.50 |
| C. latifolia eriocarpa. Not so tall as the type. Better habit and a fine variety, producing large flowers of a brilliant violet-purple in June and July. 3 feet | .50 | 3.50 |
| C. latifolia macrantha. Tall and handsome species with royal purple flowers, 2 inches long, trumpet-shaped. Suitable for the border or wild garden | .35 | 2.50 |
| C. Lauri. A new species from the Greek Islands. Resembles rotundifolia in growth, blooming much more profusely and with the lovely lavender bells turning up instead of drooping. | .75 | 5.00 |
| C. longistyla. A most beautiful Campanula, with large, violet bells having a protruding style, and carried on spikes of a foot or eighteen inches | .75 | 5.00 |
| C. mirabilis. A very beautiful variety of Campanula for the rock garden, forming a flat rosette of glossy, saw-toothed leaves and bearing a fountain of light blue bells about half the size of those of Canterbury Bells | .75 | 5.00 |
| C. muralis (Portenschlagiana). Very dwarf plant covered with blue-purple flowers in June. Fine for wall or rock garden .. | .50 | 4.00 |
| C. persicifolia (Peach Bells). One of the finest border varieties, bearing large, blue, saucer-shaped flowers on long spikes, 3 feet high. June and July | .35 | 2.50 |
| C. persicifolia alba grandiflora. A fine variety of the above, with extra large blossoms. White | .35 | 2.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|--------|
| CAMPANULA persicifolia Moerheimi. A very fine variety of the Peach Bell, with spikes of double, pure white flowers .. | \$0.75 | \$5.00 |
| C. persicifolia, Telham Beauty. A grand variety, producing immense bell-shaped flowers of delicate China blue, in June and July. 3 feet | .75 | 5.00 |
| C. pulla. Dwarf Campanula of great beauty for the alpine garden. Shining bells of deepest purple-blue on graceful, solitary stems, 3 inches high. June and July | .75 | 7.50 |
| C. pusilla. One of the very choice rock Bellflowers. Strong grower with a profusion of blue flowers during July and August. About 3 inches high | .75 | 5.00 |
| C. pusilla alba. Charming white form of the above | .75 | 5.00 |
| C. pusilla, Miss Willmott. A lovely variety with soft, pale blue flowers. New and very choice | .75 | 7.50 |
| C. Raddeana. A very handsome perennial, forming a compact bush some 12 inches high, with dark, wiry stems and large purple flowers. Very beautiful if planted near a low shrub in the rockery, to act as a light support for the beautiful blossoms | .75 | 5.00 |

Campanula Pusilla.

Campanula Latifolia.

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|---------|
| CAMPANULA Raineri. One of the choicest and rarest of the dwarf Campanulas. Large, erect, blue cups on 2-inch stems. True variety | \$1.00 | \$10.00 |
| C. Robsoni. A new hybrid of Scheuchzeri and turbinata with large, deep blue bells on spikes | .50 | 3.50 |
| C. rotundifolia Hosti. A large form of above with rich blue flowers. Very free | .50 | 3.50 |
| C. rotundifolia Scheuchzeri. A wonderful variety with magnificent bells of richest violet | .60 | 5.00 |
| C. saxifraga. Tufted, narrow foliage. Lovely violet blossoms on 2-inch stems, abundantly produced. Very rare | .75 | 7.50 |
| C. Steveni. Mats of deep green foliage, resembling C. abietina, with slender stems of six inches carrying shallow bells of pale lilac | .75 | 7.50 |
| C. Tommasiniana. A lovely Italian Alpine with narrow blue flowers on slender stems. It forms a dense tuft and flourishes in light soil on rock work. 9 inches | .75 | 7.50 |
| C. turbinata. A beautiful variety, forming close mats of foliage and bearing large saucer cups of blue, sitting close to the plant and fairly smothering it. June and July | .50 | 3.50 |
| C. Waldsteiniana. A Hungarian rock plant of exquisite beauty. It has upright and star-shaped blue flowers on short stems. It does well in a cool part of the rock garden in gritty loam. Scarce and very choice | .75 | 7.50 |
| CAMPANULA MEDIUM (Canterbury Bells). An unusually fine strain of these popular, old-fashioned flowers, obtained in England. The blossoms are much larger and the plants much more vigorous than the ordinary strain and the colors are clearer and better. | | |
| | Each | Doz. |
| C. Cup and Saucer, Pink | \$0.35 | \$2.50 |
| C. Cup and Saucer, White | .35 | 2.50 |
| C. Cup and Saucer, Blue | .35 | 2.50 |
| CENTRANTHUS (Valerian). | | |
| | Each | Doz. |
| C. ruber. Excellent showy plant for borders, walls, etc. Blooms all summer and is fine for cutting | \$0.35 | \$2.50 |
| CERASTIUM (Chickweed). | | |
| | Each | Doz. |
| C. tomentosum (Snow-in-Summer). Grey foliage and white flowers. Invaluable for rockeries | \$0.35 | \$2.50 |
| CHEIRANTHUS (Wallflower). | | |
| | Each | Doz. |
| C. Allioni. A beautiful rock plant. Dazzling fiery orange flowers, on stems about a foot high. Best used as a biennial, as it frequently blooms itself to death | \$0.35 | \$2.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

CHRYSANTHEMUM LEUCANTHEMUM (Shasta Daisy). A handsome, strong growing plant for the hardy border and valuable for cutting.

Each Doz.

C. King Edward VII. Huge cup-shaped flowers. Very attractive. 2½ feet\$0.35 \$3.50

C. Mayfield Giant. Grand new variety, with very large flowers, on strong stems. Continuous bloomer. Excellent for cut flowers50 3.50

C. The Prince. Large, pure white flowers, 5 inches across, on long, stiff stalks 18 inches or more high. New; very fine. .50 4.00

C. The Speaker. Flowers very large; one of the best varieties. .35 2.50

C. Robinsoni. Narrow, tassel-like petals. Very attractive50 3.50

C. alpinum. Lovely high Alpine with blossoms like a small Marguerite. Only suitable for rock garden..... .75 5.00

C. arcticum (Arctic Daisy). A very hardy and most attractive plant. Forms a rosette of deep green foliage and in the fall is a mass of white Daisies sometimes tinged lilac35 2.50

CLEMATIS (Virgin's Bower).

Each Doz.

C. recta grandiflora. One of the best hardy perennials. A strong, erect growing plant with heads of creamy white flowers. Is best moved when young\$0.50 \$5.00

C. recta purpurea. Very attractive form with deep reddish purple foliage. Both varieties are a great addition to the perennial garden or large rock garden75 7.50

CORYDALIS (Fumitory). Ornamental, early flowering plants, especially useful for half-shady positions but requiring good drainage. All have beautiful foliage, usually blue-green. Each Doz.

C. cheilanthifolia. Handsome variety with fernlike foliage and long spikes of yellow blossoms, 10 to 12 inches in height. Prefers rich, well drained, stony soil. Very rare; hardy\$0.75 \$5.00

C. lutea. An everblooming, dwarf variety with golden flowers. Lovely in the rock garden75 5.00

C. ochroleuca. Lovely grey-green foliage and pale yellow blossoms throughout the season. 1 foot75 5.00

C. thalictrifolia. One of the best recent introductions from China. Handsome foliage and bright, clear yellow flowers in long racemes75 7.50

Corydalis Cheilanthifolia.

WOLCOTTS, LTD., JACKSON, MICHIGAN

CYCLAMEN (Cyclamen). Beautiful, hardy plants for shady, well drained situations. Especially desirable for planting on slopes under trees and in semi-shady places in the rock garden. We are pleased to be able to offer a limited quantity.

| | Each | Doz. |
|--|--------|--------|
| C. coum. Small foliage, unmarbled, and producing a profusion of pink and white blossoms in the fall | \$0.75 | \$7.50 |
| C. europaeum. A Swiss variety of great beauty. Small, dark green leaves, slightly marbled with white. Numerous blossoms of carmine from July until fall | .75 | 7.50 |
| C. hederæfolium. A spring blooming variety with brilliant carmine blossoms and showy leaves, beautifully marbled with white. | .75 | 7.50 |
| C. macrophyllum (syn. <i>africanum</i>). Large, kidney-shaped leaves, appearing in autumn after the blossoms, which are pink with a ring of bright crimson at the center | .75 | 7.50 |
| C. neapolitanum. Lovely variety with blossoms of varying shades of pink to white, very freely produced in autumn .. | .75 | 7.50 |

DIANTHUS (Pinks). Almost all Pinks are of the easiest culture in any well drained soil and sunny position. Some of the choicest subjects for the alpine garden are to be found among them, and we feel that we have a collection of which to be proud.

| | Each | Doz. |
|--|--------|--------|
| D. alpestris. Beautiful Alpine Pink with glaucous, blue foliage. Blossoms of deep rose, intensely sweet and very much fringed. Very choice for sunny rockery | \$0.75 | \$5.00 |
| D. alpinus (Alpine Pink). This is one of the loveliest of all rockery Pinks, with glossy leaves and large flowers of brilliant rose, produced during June and July. It thrives best in loam with some lime added and perhaps a little shade during the hottest part of the summer. A gem for the rock garden. 6 inches | .50 | 3.50 |
| D. arenarius (Sand-Loving Pink). As its name indicates, this Pink delights in a sandy soil and sun. Flowers white with a carmine ring, deeply fringed and fragrant. Excellent for dry, hot places. 6 inches | .35 | 2.50 |
| D. brevicaulis. A very dwarf species from the high Alps, forming a tight mat of toothed leaves and bearing rosy mauve flowers on solitary stems close to the plant. A gem for the rockery | .75 | 7.50 |
| D. caesius grandiflorus. This is the "Cheddar Pink" and one of the best known of the family. It is very compact in growth and makes a cushion of glaucous leaves from which, in May, spring the sweet smelling, rose colored flowers, each on its own stem. It varies as much as from 4 inches to 10 inches in height. It is easily grown and very fine for the wall or rock garden. 6 inches. True | .50 | 3.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

Dianthus Deltoïdes.

| | Each | Doz. |
|--|--------|--------|
| DIANTHUS caesius arvensensis. A delightful miniature form of <i>D. caesius</i> , with the same lovely blossoms on stems of only 2 to 3 inches in height | \$0.75 | \$5.00 |
| D. deltoïdes (Maiden Pink). A beautiful little plant with narrow leaves and bearing a profusion of small crimson flowers during June and July. Easily grown on rockery. | .35 | 2.00 |
| D. deltoïdes albus. A charming white form of the above variety | .35 | 2.00 |
| D. deltoïdes, Brilliant. A very choice variety of the above, bearing bright rose colored flowers | .50 | 2.50 |
| D. fragrans. An easy rockery Pink, needing sandy loam and grit. It produces white fringed flowers. Fragrant | .35 | 2.50 |
| D. furcatus. Cushions of dark green leaves with branching stems carrying a profusion of pale rose colored flowers. 9 inches. June | .50 | 3.50 |
| D. glacialis. Although this is listed by some as one of the difficult Pinks, it has been of the easiest culture with us in gritty sand and peat. It has exquisite rose colored blossoms on short stems and is a real treasure for the rockery. Very rare. | .75 | 5.00 |
| D. glacialis gelidus. An especially rare and beautiful form of the above | .75 | 7.50 |
| D. graniticus (Granite Pink). A glorified form of the Maiden Pink, rather taller and with large, rose colored flowers from June onward. Prefers a sunny place and a gritty soil. Especially fine for the rock garden | .35 | 2.50 |
| D. integer (syn. <i>strictus</i>). Dark green foliage with erect stems of 6 inches, carrying pure white blossoms in June | .50 | 3.50 |
| D. kamtschaticus. Distinct rock plant and one of the best introductions of recent years. It is of trailing growth with large deep pink flowers | .50 | 3.50 |
| D. neglectus. One of the most beautiful wild Pinks in cultivation. The stems are about 6 inches high with deep rose colored flowers, frequently borne two on a stem. No flower garden should be without this lovely Pink | .75 | 5.00 |
| D. microlepis. Lovely carmine heads of bloom on straggly stems of a foot or so. Makes good background planting in the rockery | .50 | 3.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|------|--------|
| DIANTHUS plumarius, Maurice Pritchard. Perhaps the finest single Pink. Robust constitution. Exceptionally large pink flowers. Excellent for cutting \$0.35 | | \$2.50 |
| D. plumarius, Mrs. Sinkins. Large, double white flowers. Very fragrant50 | | 3.50 |
| D. pyridicola. A very charming small rock Pink. Compact growth, large bright pink blossoms on stems of three inches. .75 | | 7.50 |
| D. Roysi. Hybrid of <i>D. neglectus</i> with much larger blossoms. Slow to increase. The true variety is very scarce75 | | 5.00 |
| C. speciosus. A beautiful high Alpine Pink with glaucous blue foliage and erect stems bearing one or two deep rose, fringy blossoms. True variety75 | | 5.00 |
| D. suavis. A form of <i>D. caesius</i> but more dwarf and with much more jagged petals75 | | 5.00 |
| D. subacaulis. Very dwarf, tufted variety with one lovely rose colored blossom on each short stem75 | | 5.00 |
| D. sylvestris (Wood Pink). Bluish foliage and salmon-pink flowers on stems about a foot high. Likes an open, sunny place in stony loam and a slight covering of stone chips upon the surrounding soil is beneficial50 | | 3.50 |
| D. zonatus. Lovely dwarf Pink with glaucous foliage and large rosy flowers, bearded at the throat and a purple zone at center75 | | 7.50 |
| HARDY CARNATIONS (<i>Dianthus caryophyllus</i>). The genuine hardy border Carnation is a great addition to the garden. During the past few years great progress has been made in the culture of these plants and we take great pleasure in offering a strain from one of the best known growers in Scotland. They are perfectly hardy and bear in profusion blooms that are quite as large and just as handsome as the greenhouse variety. We guarantee these to be the true variety75 | | |
| | 5.00 | |
| DIGITALIS (Foxglove). The Foxglove has been a favorite in gardens since our grandmothers' time and adds beauty and dignity to any planting. The newer varieties show exceedingly choice colorings as well as increased size in spike and bloom and in combination with Larkspur and Canterbury Bells create a most charming spot in any garden. Their cultivation is very easy if given a rich, friable soil and not treated too kindly by covering the crowns for the winter. Cornstalks, so placed that they do not mat down, make an ideal covering, as they must have air during the winter. It is also well to remove some of the largest leaves. Each Doz. | | |
| D. Ayrshire White. A very fine variety, producing large spikes of pure white flowers \$0.50 | | \$3.50 |
| D. Giant Primrose. A beautiful Foxglove with large flowers of cream or buff color50 | | 3.50 |
| D. Giant Spotted. Beautiful spotted flowers in many different colors. Very large35 | | 2.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|--------|
| DIGITALIS, Giant Shirley. Magnificent strain with much larger spikes of bloom, ranging in color from white to deep rose. . | \$0.35 | \$2.50 |
| D. lanata. Very distinct, producing spikes nearly four feet high of deep cream colored flowers with brown spots. Rarely seen in gardens. Very effective planted with Rudbeckia purpurea | .35 | 2.50 |
| D. Lutz Hybrid. A new and attractive hybrid. Flowers of a light salmon color | .50 | 3.50 |
| DODECATHEON (Shooting Star). Lovely plants for the rockery in deep, moist soil. The blossoms somewhat resemble a Cyclamen and are very charming. | Each | Doz. |
| D. Meadia. Erect and strong, sometimes growing to two feet. Blossoms rose colored with yellow base | \$0.50 | \$3.50 |
| DORONICUM (Leopard's Bane). Doronicums are splendid subjects for moist or heavy situations in the garden. Especially valuable because of their early blooming. | Each | Doz. |
| D. caucasicum magnificum. Very handsome, large yellow blossoms on stems of two feet. Exceedingly showy where planted in masses. Fine for cutting. May-June | \$0.75 | \$5.00 |
| DRABA (Whitlow Grass). One of the important spring flowering plants for the rockery. Very dwarf and compact with numerous small flowers in early spring. They require an open soil and sunny position. | Each | Doz. |
| D. aizoides. Forms beautiful little rosettes of hairy leaves, covered in spring with bright yellow flowers about two inches high | \$0.75 | \$5.00 |
| D. aizoon. A very silky little rosette with flowers of pale yellow on stems of three inches | .75 | 7.50 |
| D. armata. Minute rosette with fine blossoms of golden yellow. Rare | .75 | 7.50 |
| D. olympica var. bruniaefolia. Dwarf, compact mat with bright yellow flowers in early spring | .60 | 4.00 |
| D. cuspidata. Forms dense rosettes of downy foliage. Wide flower heads of deep yellow on short stems | .75 | 5.00 |
| D. diversifolia. Compact rosettes with yellow flowers on two-inch stems | .75 | 5.00 |
| D. nivalis (Snowy). From Swiss Alps. Tiny rosettes with white blossoms on 3-inch stems in June | .75 | 5.00 |
| D. pyrenaica (Petrocallis). Delightful, mat-forming species with pale lilac blossoms which are almost stemless. Very rare | .75 | 7.50 |
| D. repens. A graceful plant of trailing growth with numerous bright yellow flowers in early spring. Rockery | .50 | 3.50 |
| D. Zahlbruckneri. From the high Alps. Small and very compact tuft with yellow blossoms on 3-inch stems | .75 | 5.00 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

DRACOCEPHALUM (Dragonhead). A very valuable class of plants for moist, shady positions. They do not bloom well where it is dry and sunny.

| | Each | Doz. |
|--|--------|--------|
| D. austriacum. A dwarf variety of great beauty with small, narrow foliage and large blossoms of blue on stems of about 12 inches. Especially fine for rockery | \$0.75 | \$5.00 |
| D. botryoides. Dwarf species, suitable for rock garden. Pink blossoms on 4-inch stems. Very choice | .75 | 7.50 |
| D. Forresti. Very new. Lovely deep blue blossoms on stems 12 to 16 inches high | .75 | 5.00 |
| D. nutans alpinum. Beautiful plant for the rockery. Half trailing growth with an abundance of purple-blue flowers | .50 | 3.50 |
| D. Ruyschianum. Spikes of dark, violet-blue flowers. 12 inches. | .35 | 2.50 |

DRYAS (Mountain Avens). Shrubby plants for the rock garden, having oak-like leaves and branching stems. They can be grown in any good, stony soil, in full sun, and should be left undisturbed as long as possible.

| | Each | Doz. |
|--|--------|--------|
| D. Drummondi. Similar to <i>D. octopetala</i> but with yellow blossoms. Rare | \$0.75 | \$7.50 |
| D. lanata. More dwarf in habit than <i>D. octopetala</i> and the foliage is covered with grey down. Very rare | .75 | 7.50 |
| D. octopetala. Very choice sub-shrub for the alpine garden. Forms flat carpets of deep green foliage and when well established, bears immense anemone-like blossoms of white. Very choice | .75 | 5.00 |
| D. octopetala minor. Very dwarf form of the above. Exceedingly choice | .75 | 7.50 |
| D. Sundermanni. Yellow buds, opening white. Very rare variety of these lovely plants | .75 | 5.00 |

EDRAIANTHUS (Wahlenbergia). Beautiful, free-flowering plants suited to the rock garden. They are closely allied to the Bellflowers; in fact, are called Tufted Harebell. They all make rosettes of narrow leaves from which radiate long stems bearing bunches of purple bells at the ends.

| | Each | Doz. |
|--|--------|--------|
| E. dalmatica. Beautiful dwarf Alpine. Flowers deep violet. Rare | \$0.75 | \$5.00 |
| E. graminifolia. Long, grassy foliage and pale blue flowers. Prefers ledge of rocks | .75 | 5.00 |
| E. Kitaibeli. Tufted foliage and bright blue flowers | .75 | 5.00 |

ERINUS (Wall Erinus). Very attractive spring flowering plants for the rock garden or dry wall. Thrives best in steep parts of the rockery where water cannot lodge. Requires a little shade from the mid-day sun.

| | Each | Doz. |
|--|--------|--------|
| E. alpinus. Purple flowers in racemes about 2 inches long ... | \$0.35 | \$2.50 |
| E. alpinus albus. A white variety of the above | .35 | 2.50 |
| E. alpinus roseus. Sprays of bright pink flowers. Very attractive in clumps | .35 | 2.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

ERODIUM (Heron's Bill). Very choice and valuable race of plants belonging to the Geranium family. The exquisite veining and blotching of the blossoms gives them an unusual beauty and the foliage in nearly every variety is very lovely. Requires a sunny position in well drained, gritty soil. Very hardy.

| | Each | Doz. |
|---|--------|--------|
| E. absinthioides. Silvery foliage, slashed into a lacelike appearance. Flowers large, on short stems, and ranging from pink to white | \$0.75 | \$7.50 |
| E. absinthioides amanum. Delicate and lovely variety; very dwarf habit. Flowers pure white on stems of 6 inches | .75 | 7.50 |
| E. absinthioides Sibthorpianum (Olympicum). Leaves nearly smooth but cut into feathers. Rosy blossoms, blotched purple, on 6-inch stems | .75 | 7.50 |
| E. chrysanthum. Very beautiful and distinct. Foliage very finely feathered and silvery. Stems branching, with heads of large blossoms of delicate sulphur yellow. Exceedingly choice | .75 | 7.50 |
| E. corsicum. Forms mats of downy, crumpled leaves. Lovely rose-pink blossoms, delicately veined with a deeper shade ... | .75 | 7.50 |
| E. daucooides. Small, rose colored flowers in profusion. Foliage like a finely cut fern. 4 inches | .75 | 7.50 |
| E. macradenum. Smooth, green foliage, so finely cut it has a lacy appearance. Small pink blossoms streaked with black. | .75 | 7.50 |
| E. romanum. Silvery foliage with leaves simply cut. The flower stems are about 6 inches high, carrying a head of about six bright pink blossoms | .75 | 7.50 |
| E. supracanum. One of the loveliest with silver foliage, forming a flat rosette and flowers of soft pink | .75 | 7.50 |

EUPHORBIA (Spurge).

| | Each | Doz. |
|---|--------|--------|
| E. myrsinites. A choice variety for hot, dry places in the rock garden or border. The growth is trailing, with stems of about 6 inches in length clothed with glaucous blue foliage and bearing heads of clear yellow blossoms | \$0.35 | \$2.50 |

ERYNGIUM (Sea Holly). Handsome ornamental plants for the hardy border and especially useful for striking effects in landscape work. Each Doz.

| | | |
|--|--------|--------|
| E. amethystinum. Distinct, glistening blue blossoms. Finely cut foliage. 2 feet Splendid variety | \$0.50 | \$3.50 |
| E. Bourgati. Bright, steel blue flowers and stems. Foliage deeply cut. 2½ feet | .50 | 3.50 |
| E. caeruleum. Good, clear blue flowers and stems. About 2 feet. Very valuable | .50 | 3.50 |
| E. giganteum. Robust species for the hardy border, with large heads of thistle-like blooms on stems 3 feet high | .35 | 2.50 |
| E. spinalba. A rare and lovely variety with spiny foliage and stems and frill of pale blue fading to white. 18 inches ... | .75 | 5.00 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

ERYSIMUM (Hedge Mustard). Very valuable race of plants for the rockery or border. Full sun and well drained soil suits them perfectly. The following varieties have all proven hardy here.

| | Each | Doz. |
|--|--------|--------|
| E. Kotschyanum. Narrow, pale green foliage and large heads of orange-yellow flowers. Very dwarf | \$0.75 | \$5.00 |
| E. pulchellum. Brilliant orange blossoms on stems from 6 to 12 inches high | .35 | 2.50 |
| E. pumilum. One of the loveliest. Tufts of foliage literally covered with bright, pale yellow blossoms on stems of 2 or 3 inches. Very scarce | .75 | 5.00 |
| E. purpureum. Dwarf, half shrubby variety with flowers of lovely purple on stems 3 to 6 inches high. Very choice ... | .75 | 5.00 |

ERYTHRAEA (Centaur). Lovely plants belonging to the Gentian family. Form tiny tufts, covered with brilliant pink, stemless blossoms. Should be given a choice place in the rockery and planted in masses.

| | Each | Doz. |
|--|--------|--------|
| E. chloodes. Lovely pink blossoms, almost stemless | \$0.50 | \$4.00 |
| E. diffusa. Especially brilliant and free flowering | .50 | 4.00 |

GENTIANA (Gentian). The Gentians furnish the rock garden with some of its most glorious subjects. While many are extremely difficult, others are comparatively easy and all will repay any effort made to give them conditions to their liking. Nearly all Gentians enjoy peat mixed with light loam and fine stones. They grow readily here and are perfectly hardy. Top dress in spring with coarse sand or very small stones, partially covering the tufts, that it may work down between the shoots.

| | Each | Doz. |
|---|--------|--------|
| G. acaulis. Very large flowers covering a dwarf, green carpet. Very choice | \$1.00 | \$7.50 |

Eryngium Amethystinum.

| | | |
|---|------|------|
| G. angulosa. One of the best of the Alpine Gentians and most beautiful. Brilliant blue cups covering the tufts of foliage nearly all summer | 1.00 | 7.50 |
| G. asclepiadea (Willow Gentian). Long, arching sprays of beautiful rich blue trumpets. 2 feet | 1.00 | 7.50 |
| G. cruciata. An easy and vigorous Gentian for deep soil in a sunny garden. Clustered heads of bright blue blossoms, on stems 12 inches high, in August and September | .75 | 7.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|--------|
| GENTIANA depressa. Dense tufts of small leaves covered with beautiful erect cups of blue | \$1.00 | \$7.50 |
| G. excisa. A choice variety of <i>G. acaulis</i> with darker foliage and larger cups of rich sapphire-blue | 1.00 | 7.50 |
| G. Farreri. A new variety from China, of great beauty. Vigorous habit, semi-prostrate growth with sky-blue flowers and white throat. Blossoms continuously from August to frost .. | 1.00 | 10.00 |
| G. Purdomi. Large, intense sapphire-blue flowers, speckled white in the throat | .75 | 5.00 |
| G. septemfida. One of the best and of easiest culture. Heads of brilliant blue blossoms in August. 6 to 12 inches high .. | .60 | 4.00 |
| G. septemfida Lagodechiana. A more dwarf variety of <i>G. septemfida</i> with large flowers of beautiful pale blue. Especially choice | .75 | 5.00 |

GERANIUM (Crane's Bill). An easily grown, long flowering group of plants, very valuable for both rock garden and border.

| | Each | Doz. |
|--|--------|--------|
| G. argenteum. One of the loveliest of rock plants with silvery foliage and glowing rose colored blossoms. 6 inches | \$0.75 | \$5.00 |
| G. cinereum. Silvery foliage and rosy blossoms on 6-inch stems. Choice | .75 | 5.00 |
| G. Endressi. Dwarf variety suitable for the hardy border or rock garden. Rose colored flowers on stems about a foot high, lasting for many weeks | .75 | 5.00 |
| G. grandiflorum. A fine plant for the border with striking, deep violet flowers 2 inches across | .35 | 2.50 |
| G. ibericum. Handsome, violet flowers, about one inch across, in showy panicles. Tufted foliage. One of the best | .35 | 2.50 |
| G. lancastriense. Lovely cushions of fine green foliage with beautiful open flowers of soft pink | .75 | 7.50 |
| G. Traversi. A beautiful dwarf, silver-leaved Geranium. Large rose colored blossoms over an inch across and borne on stems about 4 inches high. A treasure for the rock garden, although not reliably hardy in the open north of Washington. | .75 | 7.50 |
| G. Wallichianum. Charming plant of spreading habit and flowers of a beautiful shade of pale blue | .75 | 7.50 |

GEUM (Avens). Excellent border or rock plants, liking plenty of sun above and moisture at the roots. They produce very showy, bright colored flowers from June to August.

| | Each | Doz. |
|--|--------|--------|
| G. bulgaricum. Enormous, orange-yellow flowers; a magnificent variety. Very scarce and far in advance of any other Geum | \$0.75 | \$5.00 |
| G. Heldreichi. Dwarf species with large flowers of deep orange on stems about a foot in height. July | .50 | 3.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|--------|
| GEUM, Lady Stratheden. A new introduction of great merit. Rich golden yellow blossoms, counterpart of G., Mrs. Bradshaw. Fine for hardy garden | \$0.35 | \$2.50 |
| G. Mrs. Bradshaw. Large, double scarlet flowers, blooming nearly all summer. Very attractive | .35 | 2.50 |
| G. montanum. One of the most valuable of Alpines. Golden yellow blossoms on stems 3 to 6 inches high. Very lovely planted with Anemones. May | .75 | 5.00 |
| G. reptans. One of the choicest of rock plants, native of the highest Alps. Plump, feathered foliage, bearing enormous, golden blossoms on slender stems, about 9 inches high. Does best in very poor, stony and ashy soil | 1.00 | 7.50 |
| G. rhaeticum. Rarely beautiful variety, forming mats of foliage covered with golden yellow blossoms in June | .75 | 7.50 |
| GLOBULARIA (Globe Daisy). Shrubby plants for the hardy garden or rockery, producing fluffy balls of blue flowers during the summer. They all require light soil in a warm, sunny position. | | |
| | Each | Doz. |
| G. cordifolia. A small variety forming flat, dark green rosettes, covered in June with heads of blue fluff | \$0.50 | \$3.50 |
| G. nana. Very dwarf, about one inch high. Forms compact mats, covered in June with balls of lilac-blue. For choice place in rockery | .75 | 7.50 |
| G. nudicaulis. Dwarf plants for well drained but not too hot places on the rockery. Heads of steel blue, fluffy blossoms on stems of six inches | .75 | 5.00 |

Geranium.

Geum, Mrs. Bradshaw.

WOLCOTTS, LTD., JACKSON, MICHIGAN

GYPSOPHILA (Chalk Plant). Exceedingly useful plants for the garden, adding both grace and beauty to any planting. They will thrive in any open and sunny position and blossom over a long period.

| | Each | Doz. |
|--|--------|--------|
| G. acutifolia. Similar in habit to <i>G. paniculata</i> but with pale pink flowers. Very useful and decorative | \$0.35 | \$2.50 |
| G. cerastoides. Excellent plant for the rockery or very sandy soils, bearing a profusion of large white flowers, veined pink. | .50 | 3.50 |
| G. paniculata. Clouds of foamlike, white blossoms during July and August. 3 feet | .35 | 2.50 |
| G. paniculata fl. pl. Beautiful, double flowering form. Flowers pure white and a valuable plant for the hardy border | .60 | 5.00 |
| G. paniculata fl. pl., Snow White. A fine hybrid, recently introduced in Great Britain. The blossoms are double and of a snowy whiteness not to be found in the ordinary strain | .75 | 5.00 |
| G. repens. Very attractive trailing plant for rockery or dry wall. Covered with small, white flowers | .35 | 2.50 |
| G. repens rosea. Delicate rose colored variety of the above ... | .35 | 2.50 |
| G. Sundermanni. A hybrid between <i>G. repens</i> and <i>G. cerastoides</i> . Low in growth with beautiful, large white blossoms in greatest profusion. Very choice | .75 | 5.00 |

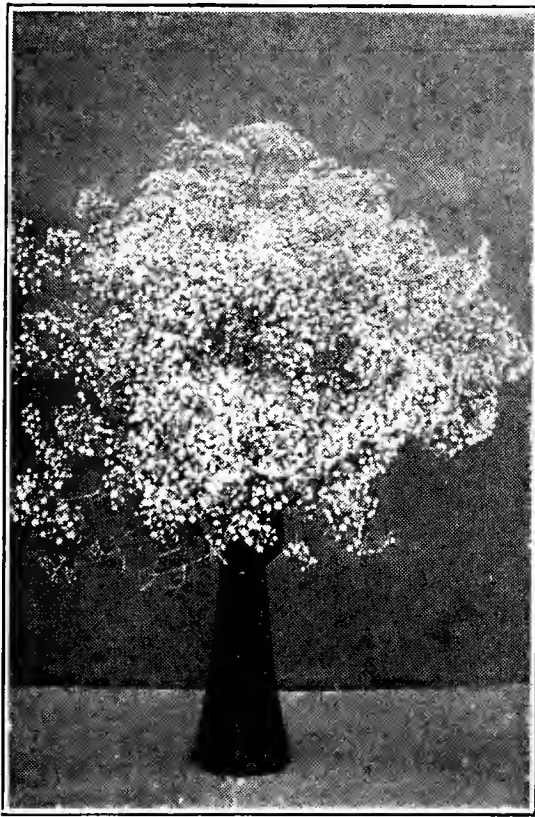

HABERLEA (Haberlea). A near relative of *Ramondia* and requiring the same treatment.

| | Each | Doz. |
|---|--------|---------|
| H. Ferdinandi-Coburgi. An especially fine form of <i>H. rhodopensis</i> , delighting in a moist, shady position. The blooms resemble a small <i>Gloxinia</i> , lilac in color and with a wide open throat speckled with gold | \$1.25 | \$10.00 |
| H. rhodopensis. Rosettes of flannel-like leaves of dusky green which in June are covered with sprays of small lilac-lavender flowers. Very choice | 1.00 | 10.00 |

| | Each | Doz. |
|---|--------|--------|
| HELIANTHEMUM (Rock or Sun Rose). Exceedingly useful as well as beautiful low growing plants for either the hardy garden or rockery. They are literally covered all summer with their delicate, crinkled blossoms, in almost every color of the rainbow. They demand sun and sandy soil and are especially valuable for places too poor to grow other plants. We have proven them perfectly hardy here, in spite of their reputation to the contrary. Should be trimmed back to prevent becoming straggly | \$0.50 | \$3.50 |

HERNARIA (Rupture Wort).

| | Each | Doz. |
|--|--------|--------|
| H. glabra. Neat, evergreen, mat-forming plant with beautiful deep green foliage. Turns bronzy red in winter | \$0.50 | \$3.00 |

Gypsophila Paniculata.

Helianthemum.

HEUCHERA (Alum Root). One of the most desirable perennials for a hardy garden or for the rockery. Compact growth with handsome dark green, mottled foliage, from which spring slender stems about a foot high bearing panicles of bright scarlet bells. Very light and airy in effect in the garden and fine for cutting.

| | Each | Doz. |
|--|--------|--------|
| H. gracillima rosea. Carmine-rose; lovely color | \$0.35 | \$2.50 |
| H. Pluie de Feu. Brilliant scarlet | .60 | 4.00 |
| H. sanguinea maxima. Bright blossoms of scarlet in July. Bells larger than type | .35 | 2.50 |

HUTCHINSIA (Hutchinsia). Each Doz.

| | | |
|---|--------|--------|
| H. alpina. Lovely Alpine for cool banks. Mats of deep green foliage covered with dainty, pure white flowers from May to July. 2 inches | \$0.75 | \$5.00 |
|---|--------|--------|

HYPERICUM (St. John's Wort). Very ornamental plants, especially valuable in the garden. Their foliage is attractive, habit good, and their late flowering makes them very desirable. They prefer a rich, sandy loam and if given partial shade, the blossoms last longer.

| | Each | Doz. |
|--|--------|--------|
| H. calycinum. A shrubby species, reaching two feet in height and producing a profusion of large yellow blossoms. Fine for banks, rockeries, etc. | \$0.50 | \$3.00 |
| H. coris. One of the jewels of the race, forming spreading tufts of blue foliage covered with cups of clear gold on threadlike stems of 6 or 8 inches, the numerous stamens giving them a skyrocket effect. Especially fine for the rockery. | .60 | 4.00 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|--------|
| HYPERICUM olympicum. Upright growth, about a foot high. Leaves grayish green; flowers large, golden yellow. Very handsome | \$0.50 | \$3.50 |
| H. polyphyllum. Rare. Glaucous foliage. Flowers yellow in dense terminal cymes. In bloom all summer | .75 | 5.00 |
| H. reptans. Beautiful, absolutely prostrate variety, forming a perfect sheet over the rocks, covered with enormous roses of gold, the outside petals being varnished with mahogany, the center having the characteristic shower of stamens. A gem every rock garden should possess | .60 | 4.00 |
| IBERIS (Candytuft). The evergreen Candytufts rank high among the rock garden flowers. They are of half-shrubby growth and in April and May become smothered with bloom. Ordinary well drained soil suits them and they never look better than when planted above some rock ledge so that the growth may hang over its face. | | |
| | Each | Doz. |
| I. gibraltarica Hybrids. Very handsome variety of Candytuft with flowers shading from deep lavender to white. Blooms nearly all summer. Very strong grower. Young plants transplant best | \$0.50 | \$3.50 |
| I. Jordani. An exceedingly choice variety for rockery. Stems trailing, about 6 inches long, the tips bearing heads of pure white blossoms of large size | .75 | 5.00 |
| I. Pruiti. Half shrubby variety with procumbent stems of white blossoms. Very rare | .75 | 5.00 |
| I. saxatilis. A jewel for the rock garden with deep green foliage like a miniature Yew. White blossoms turning pink with age | .75 | 7.50 |
| I. sempervirens, Snowflake. A splendid new variety with large white flowers and evergreen habit | .50 | 3.50 |
| I. Tenoreana. Splendid variety for sunny bank or rockery, forming dense mats a foot across, covered in spring with heads of white blossoms, often tinged purple as they fade.. | .75 | 5.00 |

Lavandula Vera.

Leontopodium.

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | | | |
|--|--|--------|--------|
| LAVANDULA (Lavender). | | Each | Doz. |
| L. vera. The true Lavender of our grandmothers' gardens, prized for its fragrant leaves as well as for its attractive blue flowers. Fine for edging beds | | \$0.35 | \$2.50 |
| LEONTOPODIUM (Edelweiss). Contrary to the popular supposition that, because the natural habitat of Edelweiss is on high mountains, it is difficult to grow, it is really easy if firmly planted in well drained, stony loam in a sunny place among rocks. The woolly flower heads on stalks about six inches high, rise from a loose tuft of rather narrow gray leaves, in June. It requires lime in the soil | | \$0.50 | \$3.50 |
| LINARIA (Toad Flax). | | Each | Doz. |
| L. alpina. A charming rock garden plant of trailing growth, bearing a profusion of violet flowers with orange throat, like a miniature Snapdragon. Loves a sunny spot in well drained soil | | \$0.50 | \$3.50 |
| L. alpina rosea. Handsome variety of the above with pale pink blooms | | .50 | 3.50 |
| L. dalmatica. Fine for borders or perennial garden. Glaucous blue foliage and spikes of golden yellow blossoms on stems of three feet | | .35 | 2.50 |
| L. origanifolia. Dwarf habit, with purple blossoms and paler throat. Six inches | | .50 | 3.50 |
| LINUM (Flax). Charming border plants of easiest culture and profuse bloom. Prefers sandy loam in full sun. | | Each | Doz. |
| L. alpinum. A rare species from the Dauphine, of prostrate growth with showers of pale blue blossoms throughout the summer. The true Alpine variety. Very scarce | | \$0.75 | \$5.00 |
| L. austriacum. A much improved variety of <i>L. perenne</i> , having more upright habit with blossoms of rich gentian-blue | | .75 | 5.00 |
| L. flavum. Fine variety with transparent, yellow blossoms. Very attractive | | .35 | 2.50 |
| L. hirsutum. Downy foliage and erect growth. Flowers large purplish blue with white eye, on stems about one foot high. Fine for border or rockery. Rare | | .75 | 5.00 |
| L. Narbonnense. Forms a spreading clump of attractive foliage with a profusion of azure-blue flowers with white eye. Very handsome for the rockery | | .35 | 2.50 |
| L. salsoloides. Forms mats of dwarf foliage, covered with beautiful blossoms of pale lavender on stems of 6 inches. Very rare | | .75 | 7.50 |
| L. tenuifolium. Dwarf variety of great beauty with prostrate foliage and rosy lilac blossoms. Lovely for a bank or rockery. Very choice | | .75 | 5.00 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|--------|
| LINUM viscosum. Rather shrubby in growth with broad leaves and large blossoms of soft lilac-rose. 12 to 18 inches. | \$0.75 | \$5.00 |
| LITHOSPERMUM (Gromwell). | | |
| | Each | Doz. |
| L. petraeum. A woody plant, in appearance much like <i>Lavandula vera</i> . Heads of beautiful pale blue and purple flowers. Should have a choice place in the rock garden in full sun and rich soil | \$0.75 | \$7.50 |
| L. graminifolium. Very choice variety with clusters of azure-blue flowers on stems six inches high | .75 | 7.50 |
| L. prostratum. Lovely trailing plant with deep green leaves and lovely bright blue blossoms, rivaling the <i>Gentian</i> | .75 | 7.50 |
| | Each | Doz. |
| LOBELIA cardinalis. Our native Cardinal Flower. Rich cardinal blossoms in August and September. Prefers a moist situation | \$0.35 | \$2.50 |
| | Each | Doz. |
| LUPINUS (Lupine). The Lupines are well known garden plants, bearing long spikes of pealike blossoms of various colors. In many gardens Lupines are killed with kindness, as they strongly object to a rich soil. Planted in sandy loam, full sun, and having perfect drainage, they will continue to be a joy for many years and one of the very showy subjects of the garden. We are fortunate in being able to offer hybrids from one of the most famous Lupine growers in Europe. The choice colors and large blooms will more than please our customers. Young plants | \$0.50 | \$3.50 |
| LYCHNIS (Campion). A family of very showy and useful plants both for the border and rock garden. Very easy culture, thriving in almost any soil, but requiring full sun. | | |
| | Each | Doz. |
| L. alpina. A very attractive little plant for the rockery, of tufted growth and bearing heads of pink blossoms in May and June | \$0.50 | \$3.50 |
| L. Arkwrighti. A new and very desirable border plant, being a cross between <i>L. chalcedonica</i> and <i>L. Haageana</i> . Makes a long and lasting display in many new and lovely colors | .50 | 3.50 |
| L. chalcedonica. Brilliant scarlet; very showy | .35 | 2.50 |
| L. Lagascae. An exquisite little plant for the rockery. Forms small clumps about 4 inches high, covered with showy blossoms of carmine-rose | .75 | 5.00 |
| L. Lagascae rosea. A rose colored form of this lovely species.. | .75 | 5.00 |
| L. pyrenaica. Glaucous foliage, with exquisite blossoms of pink or white. One of the choicest | .75 | 7.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

LYSIMACHIA (Loosestrife).

| | Each | Doz. |
|--|--------|--------|
| L. atropurpurea. Fine plant for moist places with spikes of crimson flowers, 2 feet high. July | \$0.50 | \$3.50 |
| L. nummularia (Creeping Jenny). Excellent carpeting plant for sun or shade. Showy yellow blossoms in midsummer .. | .35 | 2.00 |

MERTENSIA (Blue Bells). One of the most attractive early blooming plants, especially useful as it thrives best in shade. Should be given a very rich soil and be left undisturbed for years.

| | Each | Doz. |
|--|--------|--------|
| M. echioides. Exquisite, dwarf variety with croziers of rich, sapphire-blue flowers on stems of 8 or 9 inches. Rich soil and shady situation | \$0.75 | \$7.50 |
| M. virginica (Virginian Cowslip). Long, nodding clusters of pale blue flowers with pink buds, making a most charming combination. Prefers moist, peaty ground. Foliage disappears during summer | .35 | 2.50 |

Lupines.

Lychnis Chalcedonica.

WOLCOTTS, LTD., JACKSON, MICHIGAN

MIMULUS (Monkey Flower).

| | Each | Doz. |
|--|--------|--------|
| M. luteus. Handsome plant for moist, shady places. Grows about 10 to 12 inches high, covered nearly all summer with showy yellow blossoms | \$0.50 | \$3.50 |
| M. ringens. A rare and very lovely variety with violet-purple blossoms | .75 | 5.00 |

MYOSOTIS (Forget-Me-Not). Nearly everyone is familiar with the Forget-Me-Not which makes such beautiful pictures in the garden in early spring. They are alike charming in the border, rock garden, or by the waterside. They all require shade and a fair amount of moisture.

| | Each | Doz. |
|--|--------|--------|
| M. Alpine Blue. One of the most intense blues of all the Forget-Me-Nots and makes a very compact growth. 9 inches .. | \$0.25 | \$2.50 |
| M. Blue King. One of the richest and deepest colored blues of all the Alpine Forget-Me-Nots. 10 inches | .35 | 3.50 |
| M. alpestris, Queen Victoria. Improved dwarf variety with large flowers in clusters | .25 | 2.50 |
| M. caespitosa Rehsteineri. Very dwarf alpine variety of azure-blue; blossoms in June. Rare. 2 inches | .75 | 5.00 |
| M. lithospermifolia. Very rare variety with large, deep blue flowers | .75 | 5.00 |
| M. palustris semperflorens. Large, rich blue flowers with yellow eye. A charming plant for damp places and a more profuse bloomer than the type | .25 | 2.00 |
| M. Rosy Gem. Dwarf and compact, with beautiful pink blossoms in great profusion | .35 | 3.50 |
| M. Royal Blue. An exquisite variety of Forget-Me-Not, literally covered with flowers of beautiful indigo-blue in long sprays. A mass of this makes a sight not to be forgotten. Fine for cutting. 12 inches | .25 | 2.50 |
| M. rupicola. The gem of all the Alpine Forget-Me-Nots. Forms rosettes of beautiful foliage, covered with heads of large flowers of the most exquisite blue. Thrives especially well in moraine | .75 | 6.00 |
| M. Ruth Fisher. A fine new hybrid of compact habit, with dark green, glossy foliage, and large, bright blue flowers ... | .50 | 3.50 |
| M. stricta (Pillar Forget-Me-Not). Erect, very trim growth; about 6 inches high. Choice | .50 | 3.50 |
| M. stricta, Blue Gem. Very brilliant blue | .50 | 3.50 |
| M. stricta, Pink Gem. Lovely soft pink. Good, distinct color. | .50 | 3.50 |
| M. stricta, White Gem. Pure white, yellow eye | .50 | 3.50 |

Nepeta Mussini.

Myosotis.

MYRRRHIS (Myrrh).

| | Each | Doz. |
|--|--------|--------|
| M. odorata. The Sweet Cicely of English gardens. A very attractive plant having finely cut foliage resembling a large fern, and bearing panicles of lacelike white bloom in early spring. Very valuable as a background for spring blooming bulbs | \$0.50 | \$3.50 |

NEPETA (Catmint).

| | Each | Doz. |
|--|--------|--------|
| N. Mussini, Dark Var. A new variety with deep blue flowers. Very handsome | \$0.35 | \$2.50 |
| N. nuda. A novelty received from Switzerland. Rather dwarf and compact grower | .35 | 2.50 |

OENOTHERA (Evening Primrose). The Evening Primroses are excellent subjects for planting in sunny, exposed parts of the garden, and are especially fond of a sandy soil.

| | Each | Doz. |
|---|--------|--------|
| O. acaulis. Fine for rockery or edging in full sun and well drained position. Yellow blossoms on 6-inch stems | \$0.50 | \$3.50 |
| O. Fraseri. Handsome yellow blossoms, freely borne for a long season. Equally useful for border or rockery. 1 foot. | .35 | 2.50 |
| O. pumila. Forms neat rosettes flat on the ground, covered all summer with bright yellow blossoms. Wants both sun and sand. 4 inches | .50 | 3.50 |
| O. speciosa. Large, pure white flowers, about 3 inches across. | .35 | 2.50 |
| O. taraxacifolia. Forms a spreading tuft of leaves close to the ground, from which spring twisted stems bearing very large white blooms, turning to pink with age. Very attractive ... | .75 | 5.00 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | | Each | Doz. |
|---|--|--------|--------|
| PAPAVER (Poppy). | | | |
| P. alpinum. | Like a small and more delicate Iceland Poppy having flowers of white, pink, orange or yellow and often delicately fringed. Transplants best when quite small. True stock, from Switzerland | \$0.35 | \$2.50 |
| P. nudicaule (Iceland Poppy). | A native of the Arctic regions and mostly yellow flowered. Very showy and excellent for cut flowers | .35 | 2.50 |
| P. pilosum. | Very attractive Alpine with showy orange flowers. | .35 | 2.50 |
| PENTSTEMON (Beard Tongue). Few border plants are more useful than the Pentstemons. Graceful in habit, free flowering and easily grown, they add much to the beauty of any garden. The dwarf varieties are especially fine for the rock garden. Given rich, light soil and plenty of sun, they will all flourish amazingly. | | | |
| | | Each | Doz. |
| P. alpinus. | One of the beauties of the race. Glaucous blue foliage and clear blue blossoms with white throat. 6 inches .. | \$0.75 | \$5.00 |
| P. cyananthus Brandegei. | A dwarf and very beautiful variety, especially suited to the rock garden. Deep blue blossoms on stems about 9 inches in height | .50 | 3.50 |
| P. glaber. | Glaucous foliage and flowers of lovely clear blue on spikes about 18 inches high | .35 | 2.50 |
| P. glaber roseus. | A variety of the Western species with rosy pink blossoms | .50 | 3.50 |
| P. Gordoni splendens. | A superb variety of P. glaber. Erect spikes of brilliant deep blue flowers. 3 feet | .75 | 5.00 |
| P. heterophyllus. | One of the best. Spikes of exquisite sky-blue blossoms, shaded amethyst. 1 foot. True variety ... | .60 | 4.00 |
| P. pygmaeus. | Very dwarf, only 6 inches high. Flowers of clear blue from July to September | .75 | 5.00 |
| P. secundiflorus. | Spikes of bloom about 2 feet tall, of a beautiful, glaucous blue | .50 | 3.50 |

Papaver Nudicaule.

Platycodon Grandiflorum.

WOLCOTTS, LTD., JACKSON, MICHIGAN

PHLOX SUBULATA (Moss Pink). The creeping Phloxes are easily grown in full sun and make a very valuable addition to either the hardy garden or rockery because of their sheets of color in early spring. They form creeping masses of mosslike foliage, smothered with large, brilliant flowers. We list a few of the best.

| | Each | Doz. |
|---|--------|--------|
| P. Daisy Hill. Large, deep rose blossoms | \$0.35 | \$2.50 |
| P. G. F. Wilson. Delicate blossoms of pale lilac | .35 | 2.50 |
| P. The Bride. Purest white | .35 | 2.50 |

PHYTEUMA (Horned Rampion). A small race of Alpine plants from the mountains of Europe and Western Asia. Very frail in appearance, with balls of bloom quite unlike any others. They are all very rare but thrive well in sandy peat and loam, with perfect drainage.

| | Each | Doz. |
|--|--------|--------|
| P. hemisphaericum. Grasslike foliage, forming small tufts. Flowers like tiny clear blue, sodawater bottles with protruding, forked stigma. Very unusual in effect and very choice | \$0.75 | \$7.50 |
| P. Michelli. Spikes of deep purple flowers on six-inch stems. Very dwarf | .75 | 7.50 |
| P. Mitchelli betonicifolium. Like the preceding but with pale blue blossoms | .75 | 7.50 |
| P. Scheuchzeri. One of the choicest Alpines, forming close masses of deep green foliage and bearing graceful balls of deep blue on foot high stems in July. Very rare | 1.00 | 7.50 |

PLATYCODON (Chinese Bellflower). These are closely allied to the Bellflower family and derive the name of "Balloon Flower" from the shape of the buds. They enjoy a very rich, loamy soil and are most attractive plants for the border, bearing blue blossoms for about a month or six weeks, beginning about the middle of July. They are best planted when quite young, as they do not bear disturbing after once established. Start into growth very late in the spring.

| | Each | Doz. |
|--|--------|--------|
| P. Mariesi. A splendid variety of dwarf habit with very large flowers of a purplish blue color | \$0.35 | \$2.50 |
| P. grandiflorum. Very handsome variety, about 2 feet high, blooming in July and August. Flowers a deep blue, two or three inches across | .35 | 2.50 |

POLEMONIUM (Jacob's Ladder). Excellent border plants with striking handsome and effective blossoms. The foliage is also very handsome, closely resembling some of the ferns. They flourish in rich, deep, well drained loam and prefer partial shade.

| | Each | Doz. |
|--|--------|--------|
| P. caeruleum grandiflorum. A very large form of <i>P. caeruleum</i> , having long spikes of large blue blossoms | \$0.35 | \$2.50 |
| P. caeruleum grandiflorum album. A fine white form of the above | .35 | 2.50 |
| P. carneum. Fernlike foliage with masses of flesh colored bells in midsummer. 1 to 2 feet | .50 | 3.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|--------|
| POLEMONIUM confertum. A treasure from the highest Alps of the Rockies. Very dwarf, the flower stems of about 8 or 10 inches high, bearing dense heads of beautiful saucer-like bells of clear, rich blue. A gem for the rockery | \$0.75 | \$7.50 |
| P. humile. Very pretty with pale blue blossoms, white in the throat, on stems of six inches | .75 | 5.00 |
| P. reptans. Lovely bells of pale blue on slender stems. Trailing growth. Very choice and very rare | .75 | 5.00 |
| POTENTILLA (Strawberry Flower). Very effective plants for the rock garden with strawberry-like leaves and showy blossoms which continue for a long period. Do well in an open position. | Each | Doz. |
| P. alpestris. Erect growing with large, pale yellow blossoms. Fine for sunny positions | \$0.50 | \$3.50 |
| P. crinita. Very handsome, silky white foliage. Large, yellow blossoms on stems about 15 inches high | .35 | 2.50 |
| P. Friedrichseni. Lovely tiny bushes about 10 inches high. Small, attractive foliage and graceful weeping habit. A profusion of yellow blossoms from May to September. Especially suited to the rock garden | .75 | 5.00 |
| P. pyrenaica. A choice variety from the Pyrenees with lovely golden blossoms, one or two to the stem and suitable for the rockery or perennial garden | .50 | 3.50 |
| P. rupestris. A very beautiful variety with stems about one foot high bearing beautiful, clear white blossoms. Very choice .. | .75 | 5.00 |

Potentilla.

Primula Japonica.

WOLCOTTS, LTD., JACKSON, MICHIGAN

POLYANTHUS (Bunch Primrose). The Polyanthus is an indispensable spring flower and should be used largely in flower beds and borders, also wild gardens and rockeries. It likes an open, half-shady position in rich soil and under such conditions will bear flower stems a foot high.

| | Each | Doz. |
|---|--------|--------|
| P. Exhibition Blue. A very beautiful strain, having flowers from blue to purple | \$0.75 | \$5.00 |
| P. Gold Laced. Wide range of colors, all beautifully laced with gold | .50 | 3.50 |
| P. Exhibition White. A very fine, large-flowered pure white, with striking yellow eye | .50 | 3.50 |
| P. Mrs. Berkeley. A new strain of bunch Primrose, with remarkably large blossoms and clear colors | .75 | 5.00 |
| P. Munstead Strain. In shades of yellow, from cream to dark orange, selected and perfected by Miss Jekyll of England ... | .50 | 3.50 |
| P. Pink and Red Shades. Very handsome, ranging from light to dark red, with yellow eye | .50 | 3.50 |
| P. Mixed | .35 | 2.50 |

PRIMULA (Primrose). A race of plants little known in America, but forming one of the most attractive features of the spring garden. They are perfectly hardy in our Michigan climate and once established are as sturdy as our oaks. The different varieties range in size from one inch to three feet, and in time of blooming, from early April until late summer. Do not try to compel Primroses to grow in hot, sandy places for you will only meet with failure. They need at least partial shade and while they enjoy moisture at the roots, they must have good drainage or they will rot at the crown. Also be particular when planting that no dirt is left on the crown, as it seems to smother them. We have found hard coal cinders excellent for drainage. In fact, the majority of rock plants seem to like a few cinders mixed with the soil.

| | Each | Doz. |
|---|--------|--------|
| P. auricula alpina. One of the treasures of the rock garden. The growth is very attractive, forming rosettes of thick leaves, sometimes farinose or mealy. From these rosettes the flower stalks rise to a height of 6 or 8 inches, bearing heads of bloom of various colors and exceedingly fragrant. Their native home is in the rocks, where they are constantly supplied with moisture at their roots. Give them a mixture of peat, leaf mould, and sandy loam, with plenty of stones mixed. Our strain is from the great Primula specialist in Scotland and comprises a wide range of beautiful colors and extraordinary size | \$0.75 | \$5.00 |
| P. anisodora. Habit of <i>P. japonica</i> . Flowers in whorls of deep maroon with bright yellow eye. 18 inches | .75 | 7.50 |
| P. Beesiana. Distinct type of <i>Bulleyana</i> and <i>pulverulenta</i> but later than either, with flowers of various shades of purple with yellow eye. 3 feet | .75 | 5.00 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|--------|
| PRIMULA Bulleyana. A beautiful species from Yunnan. Flowers rich golden yellow, shaded orange buff, borne in whorls on stiff stems. 2 feet | \$0.50 | \$4.00 |
| P. Bullesiana Hybrids. A new strain of Hardy Primulas with the constitution of <i>P. japonica</i> , resulting from the crossing of <i>P. Bulleyana</i> and <i>P. Beesiana</i> . Colors range from cream to many shades of yellow, orange, purple, lilac, pink and crimson. They are very hardy and prefer a half shaded position that is fairly moist | .75 | 5.00 |
| P. capitata. Producing dainty heads of handsome violet-blue flowers, dusted with a white mealy powder. Likes a partially shaded, moist position; late. 1 foot | .75 | 5.00 |
| P. calycina. Pointed glossy leaves and large heads of showy rose-purple flowers. 4 inches | .75 | 7.50 |
| P. cashmiriana. Flowers much the same as <i>denticulata</i> but of a deep purple | .50 | 4.00 |
| P. chionantha. A new species from China. Tall, white-powdered stems, bearing fragrant white flowers with blackish center | 1.00 | 10.00 |
| P. Cockburniana. A lovely species recently introduced from Western China, bearing scarlet flowers in whorls; very striking. Makes a wonderful combination of color planted with <i>Bulleyana</i> . 1 foot | .75 | 5.00 |
| P. cortusoides. A distinct Siberian species, with soft, wrinkled heart-shaped leaves. Flowers in early summer, deep rose. Prefers light, rich, well drained soil, in a sunny position, in border or rockery. 10 inches | .50 | 4.00 |
| P. denticulata. Very handsome, large flower heads, in various shades of lilac. One of the first to bloom. Prefers a moist, shady position. 2 feet | .50 | 4.00 |
| P. denticulata alba. A beautiful white form of the above. 2 feet. | .75 | 5.00 |
| P. farinosa. Silvery foliage and rosy purple flowers. 1 foot .. | .60 | 4.00 |
| P. Forresti. A beautiful variety recently introduced from China. Flowers on slender stems, deep orange, and very fragrant. Prefers well drained, half-shady position in rock garden | .75 | 7.50 |
| P. frondosa. Similar to <i>farinosa</i> , with rosy lilac blooms | .60 | 4.00 |
| P. glycosma. Fine species for damp or boggy situations. Deep purple flowers on strong stems of 18 inches | .75 | 7.50 |
| P. helodoxa. A superb variety from China, belonging to the <i>Japonica</i> class. Soft, rich yellow flowers in whorls, on tall stems. Prefers moist situation. Very choice | 1.00 | 7.50 |
| P. involucrata. Lovely in a damp, shady place; umbels of white, drooping flowers. 1 foot | .75 | 7.50 |
| P. Juliae. A recent discovery in the Caucasus but has already won a high place in the gardener's heart. Loves a moist spot in rich soil where it forms hearty rosettes of crinkly, deep green leaves. Lovely deep lilac blossoms on single stems of 2 or 3 inches. Blooms at intervals all summer | .75 | 7.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|--------|
| PRIMULA japonica Hybrids. A strain of this beautiful Primrose in shades of crimson. Extra fine strain | \$0.50 | \$3.50 |
| P. Lissadell Hybrid. A cross between pulverulenta and Cockburniana. Very vigorous with flowers of a beautiful soft vermillion. 2 feet | .75 | 7.50 |
| P. Lissadell Hybrid, Ailin Aroon. Another cross between pulverulenta and Cockburniana; flowers light scarlet | .75 | 7.50 |
| P. Lissadell Hybrid, Red Hugh. Intense fiery red. Very new and exceedingly choice | .75 | 7.50 |
| P. Littoniana. One of the most striking. Flowers lilac, in spikes, with vividly contrasting buds of red | 1.00 | 7.50 |
| P. longiflora. From high Alpine meadows. Small tufts of leaves, stalwart stems carrying five or six rosy lilac blossoms. very similar to P. farinosa but deeper in color | .75 | 5.00 |
| P. luteola. Heads of pale yellow blossoms about 6 inches high. Robust plant and very attractive | .75 | 5.00 |
| P. microdonta (Moonlight Primula). Lovely species from Tibet growing in shady bogs. Leaves leathery. Flower stems 12 to 14 inches tall, bearing umbels of cream colored flowers. Very fragrant. Ready in fall | .75 | 7.50 |
| P. microdonta alpicola. Like preceding, but flowers primrose colored, dusted with white meal at throat. Ready in fall .. | .75 | 7.50 |
| P. microdonta alpicola violacea. Hight alpine form, having violet-purple blossoms in June | .75 | 7.50 |
| P. nivalis. Clusters of pure white flowers on 4-inch stems. Dark thick leaves, forming a rosette. Very rare | 1.00 | 10.00 |
| P. Poissoni. Very handsome Primrose from Northern China. Light foliage and flowers of a deep purple with a bright yellow center, in whorls. June and July. 2 feet | .75 | 5.00 |

Primula Veris.

Primula Cashmiriana.

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|---------|
| PRIMULA pulverulenta. Rich crimson in color, in whorls, on stems 3 feet high. One of the finest varieties | \$0.75 | \$5.00 |
| P. pulverulenta, Mrs. Berkeley. A very beautiful form of pulverulenta, having pale, blush flowers with a saffron eye. Very choice. 3 feet | .75 | 7.50 |
| P. rosea. A handsome species, native of Kashmir. Leaves bright pale green and flowers in early spring of a bright rosy carmine, with yellow center. Prefers moist, loamy soil in rockery or on banks of streams. 6 inches | .75 | 7.50 |
| P. Sieboldi. We are pleased to announce we again have a limited stock of P. Sieboldi | 1.00 | 7.50 |
| P. Sieboldi rubra grandiflora. Deep red blossoms on 6-inch stems. Very large flowers | 1.00 | 7.50 |
| P. Sieboldi alba. Large, pure white blossoms on strong stems .. | 1.00 | 7.50 |
| P. sikkimensis. One of the loveliest of the Primroses. Umbels of drooping, soft yellow bells in June. Prefers boggy soil and shade. 1 foot | .75 | 7.50 |
| P. veris (True English Cowslip). Various shades of yellow .. | .35 | 2.50 |
| RAMONDIA (Rosette Mullein). We take much pleasure in offering our patrons this very choice and interesting gem of the rock garden. The densely hairy leaves form a flat rosette, throwing scapes of exquisite violet blossoms with yellow centers. They should be planted in a cleft of the rocks, so water cannot lodge in the crown, in a mixture of coarse, sandy peat. | | |
| | Each | Doz. |
| R. pyrenaica. Densely hairy leaves, forming a flat rosette and throwing scapes of exquisite violet blossoms | \$1.00 | \$10.00 |
| R. Nathaliae. The Carpathian form. Brilliant deep lilac flowers. Very scarce | 1.25 | |
| RANUNCULUS (Buttercup). The Alpine section of this family contains many gems for the rock garden. | | |
| | Each | Doz. |
| R. alpestris. A treasure for the alpine garden. Forms tufts of very deep green leaves. Pure white Buttercups with yellow eye on stems of 2 or 3 inches in spring and intermittently throughout the season | \$0.75 | \$7.50 |
| R. montana. Dwarf variety with golden yellow Buttercups ... | .50 | 3.50 |
| | Each | Doz. |
| ROSCOEIA cautlioides. New introduction from China. Lovely flowers of soft yellow, not unlike an orchid. Foliage resembles that of an Iris. Thrives in rich woodland soil in full sun | \$1.00 | \$7.50 |
| | Each | Doz. |
| ROMANZOFFIA sitchensis. Kidney-shaped, scalloped leaves with small white flowers on branching stems, resembling a Saxifrage. For damp spots in rock garden, in partial shade. | \$0.75 | \$7.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

SAPONARIA (Soapwort). Each Doz.

S. caespitosa. A beautiful variety from the Pyrenees. Dense rosettes with velvety buds of red, opening pink. 6 inches ... **\$0.75 \$5.00**

S. ocymoides splendens. A much improved variety of the common Soapwort. Trailing growth and a profusion of deep pink blossoms in June. Fine for sandy places in full sun ... **.35 2.50**

SATUREIA (Savory). Each Doz.

S. montana. Very choice, bushy little plants for sunny places in the rock garden. Delicate foliage with thymelike blossoms of mauve in late summer. 8 inches **\$0.50 \$3.50**

SAXIFRAGA DACTYLOIDES (Mossy Saxifrage). The Mossy Saxifrages are ideal plants for amateurs. They form perfect little carpets of evergreen that quickly spread over the ground or cover the stones with beautiful, close-tufted verdure, which, in spring and early summer, become jeweled with sprays of blossoms in pink, white or red. Most of them are easy to grow and ordinary, well drained, loamy ground, with which pieces of grit or stone have been mixed, suits them admirably. They prefer half-shade.

Each Doz.

S. Apple Blossom. Soft pink and white blossoms. Dwarf ... **\$0.50 \$5.00**

S. aquatica. Handsome mossy Saxifrage with very finely cut foliage and tall, branching stems bearing sprays of brilliant white flowers **.75 5.00**

S. Bathoniensis. Grows nearly a foot high, with much branched stems, and large brilliant red flowers **.75 5.00**

S. Guildford Seedling. Small red flowers, compact grower ... **.75 5.00**

S. magnifica. Largest flowering of all. Flowers clear crimson .. **.75 5.00**

S. Rhei superba. Deep rose colored flowers; 4 inches **.75 5.00**

S. tenella. Forms a dense carpet of mossy green. Cream white flowers on stems of 3 inches **.75 5.00**

S. trifurcata. An especially handsome mossy, with deep green foliage and branching sprays of large, pure white flowers ... **.75 5.00**

SAXIFRAGA EUAIZOONIA (Silvery Rockfoil). A class of very beautiful plants, natives of the European Alps and Arctic regions. Nearly all have lime encrustations on the foliage, making them glorious subjects for the rock garden. They thrive in light, well drained stony loam, with a little lime added, but must be planted **flat** against the rocks in such a manner as to prevent water lodging in the crowns.

Each Doz.

S. aizoon. A treasure for the alpine garden, forming rosettes of silver beaded leaves and bearing plumes of creamy white blossoms, 8 to 10 inches high, in early summer **\$0.75 \$7.50**

S. balcana. Incurved rosettes of encrusted foliage. Flowers white speckled purple **.75 7.50**

S. cochlearis. Dainty spikes of slightly spotted white flowers on red stems. Very silvery rosette. 6 inches **.75 7.50**

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|--------|
| SAXIFRAGA cotyledon. Large rosettes of broad, encrusted leaves and large pyramids of white flowers. The flowering rosette dies after blooming but carries on by the surrounding rosettes | \$0.75 | \$7.50 |
| S. granulata (Fair Maids of France). Showers of large, white blossoms on graceful stems of 10 inches | .75 | 7.50 |
| S. lantoscana. Arching sprays of creamy white flowers. Very fine. 12 inches | .75 | 7.50 |
| S. longifolia. Called the "Queen of Saxifrages." Beautiful encrusted rosettes, lovely enough in themselves, but the crowning glory is the immense panicle of white bloom, 1 to 2 feet long. Should be planted flat against the rock. Our stock is direct from the Pyrenees Mountains | .75 | 7.50 |
| Extra large specimens | 1.25 | |
| S. Macnabiana. Very choice encrusted, requiring same treatment as all the Euaizoons. Panicles of white blossoms, spotted red. | .75 | 7.50 |
| S. marginata. Bunches of white flowers and frosted leaves. One of the finest | 1.00 | 10.00 |
| S. splendens (longifolia x cotyledon). One of the very choice hybrids of the encrusted section. It has more of the longifolia rosette and the looser inflorescence of the cotyledon parent. A most attractive plant for the rock garden, the silvery edging of the leaves being most interesting. Plant in loamy soil, with plenty of grit; limestone, if possible. Top dress with coarse gravel | 1.00 | 7.50 |
| S. umbrosa, London Pride. Spikes of white flowers, spotted pink, and dark green foliage. Very fine | .75 | 7.50 |
| SAXIFRAGA MEGASEA. A most effective class of plants having broad, deep green foliage which takes on most beautiful tints in the fall. They are perfectly hardy, their only demand being stones around the roots, which makes them very desirable for the rock garden. The flowers are borne on stout stems well above the foliage and are very handsome, ranging in color from palest pink to rose and purple. | | |
| | Each | Doz. |
| S. Beesiana. Valuable new variety of S. Megasea. Rose colored flowers. Foliage rich purple in winter | \$0.75 | \$5.00 |
| S. cordifolia. Thick, branching stems. Pink flowers on stems of 12 inches. Foliage richly colored in winter | .60 | 4.00 |
| S. crassifolia. Similar to above but pink flowers stand perfectly erect on hairless foot-stalks | .60 | 4.00 |
| S. purpurea. Giant form with deeper colored flowers and particularly rich coloring in winter | .60 | 4.00 |
| S. Smith's Hybrids. We are able to offer Smith's Hybrids, which are the finest grown | .50 | 5.00 |
| SCUTELLARIA (Helmet Flower). | | |
| | Each | Doz. |
| S. alpina. Handsome lipworts with whorled sprays of violet blossoms. Light soil in full sun. 12 to 18 inches | \$0.50 | \$3.50 |
| S. japonica. Grayish foliage; large trumpets of deep purple .. | .50 | 3.50 |

Saxifraga Cordifolia.

Sedum Spurium Splendens.

SEDUM (Stonecrop). The dwarf varieties are charming plants for sunny positions in the rockery, etc., and the taller kinds make effective color groups in the border. They thrive in almost any soil. They are especially fond of sand and full sun.

| | Each | Doz. |
|---|--------|--------|
| S. album. Foliage green. Small white flowers. 3 inches | \$0.25 | \$2.00 |
| S. anglicum. A very choice variety of Sedum with delicate pink, feathery blossoms. It is reputed hard to grow but has been most rampant with us in a sandy soil and full sun. A gem for the rockery | .50 | 3.50 |
| S. corsicum. A form of <i>S. dasyphyllum</i> with spraying branches of slightly hairy foliage. Very choice | .75 | 5.00 |
| S. dasyphyllum. A rare variety from Southern Europe, having fat, glaucous blue leaves set tight on their 3-inch stems. Slightly resembles <i>S. anglicum</i> but bluer. Flower pink and very profuse | .50 | 5.00 |
| S. Ewersi. Gray foliage and attractive growth. Rosy lilac flowers. Choice | .35 | 2.50 |
| S. kamtschaticum. Foliage deep green, coarsely toothed, numerous yellow flowers in flat heads; 6 inches | .35 | 2.50 |
| S. Lageri. Attractive new species, with orange flowers. 1 foot. | .35 | 2.50 |
| S. lydium. Pink blossoms; bronzy green tufts. 4 inches. True variety; very scarce | .50 | 3.50 |
| S. maximum. Tall, robust species, foliage purplish, flowers whitish. 2 feet | .35 | 2.50 |
| S. Nevi. Very dwarf. Deep green foliage, white blossoms in early summer | .50 | 3.50 |
| S. pulchellum. One of the prettiest of the family, with trailing stems and bright red flowers, like a starfish. 5 inches. The true variety | .50 | 3.50 |
| S. purpurascens. Purplish foliage and pinkish purple flowers. 15 inches | .35 | 2.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|--------|
| SEDUM reflexum. A variety with green leaves and yellow blossoms. 8 to 10 inches high | \$0.35 | \$2.50 |
| S. Sieboldi. Handsome glaucous foliage and bright pink flowers in September. 6 inches | .35 | 2.50 |
| S. spurium splendens. Creeping habit with umbels of rosy pink flowers | .35 | 2.50 |
| S. stoloniferum. Long, rooting stems, blunt leaves, scalloped at their edges, ending in heads of pink flowers | .35 | 2.50 |
| S. ternatum. Native of Eastern U. S. Grows well in sun or shade. Starry white flowers. 4 inches | .35 | 2.00 |
| SEMPERVIVUM (Houseleek). Interesting plants for hot, dry situation, especially for the rock garden. Extremely attractive foliage. | | |
| | Each | Doz. |
| S. arachnoideum minus. Small rosettes, covered with fine, cobweb-like down | \$0.50 | \$3.50 |
| S. Brauni. From Alps of Styria. Lovely pointed-leaved little rosettes with clusters of bright yellow flowers on slender stems | .75 | 5.00 |
| S. calcareum. Large rosettes of glaucous green leaves with red points | .50 | 4.00 |
| S. Funcki. From Tyrol Mountains. Small rosettes of brilliant emerald lacking any red tip. Spikes of red flowers | .35 | 2.50 |
| S. globiferum. Bright green leaves, tipped red-brown. Small rosettes | .35 | 2.50 |
| S. Heuffeli. Medium size, brilliant green leaves. Flowers light yellow | .50 | 3.50 |
| S. ornatum. Leaves red at base, fading to green at top. Very effective | .50 | 4.00 |
| S. Pittoni. Tongue-shaped leaves, tipped purple. Extremely rare | .75 | 5.00 |
| S. rubicundum. Large rosettes of dull red leaves tipped green.. | .75 | 5.00 |
| S. tectorum (Common Houseleek). Large green leaves, pale red flowers | .35 | 2.50 |
| SILENE (Catchfly). A charming class of plants for the rock garden. They are closely allied to the Pink family and require much the same treatment. They bloom nearly all summer and are very desirable additions to the rockery. | | |
| | Each | Doz. |
| S. acaulis. Close cushions of foliage, spangled with tiny pink, stemless flowers in June. Very choice | \$0.75 | \$5.00 |
| S. alpestris. A charming Alpine plant with pure white blossoms on wiry stems from 3 to 4 inches high | .35 | 2.50 |
| S. monachorum. Very dwarf variety for cool rocks. White blossoms on 2-inch stems all through the summer. Rare .. | .75 | 5.00 |
| S. pumilio. Lovely little plant with bright rose colored flowers and shining foliage. 2 inches | .75 | 7.50 |

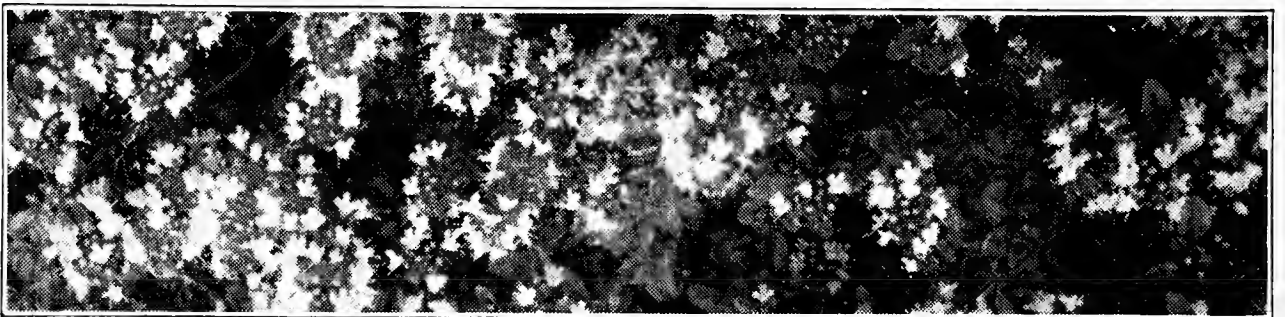

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|--|--------|---------|
| SILENE quadrifida. Fine for damp and partially shady spots in rock garden. Branching, airy stems of 4 or 5 inches with a shower of pure white blossoms | \$0.75 | \$5.00 |
| S. saxifraga. A choice Alpine of mossy growth. Flowers white, in great profusion | .35 | 2.50 |
| SOLDANELLA (Moonwort). Charming subjects for the alpine garden. Natives of Switzerland, they are perfectly hardy and thrive well in moist, cool soils. | | |
| | Each | Doz. |
| S. alpina. One of the gems of the rock garden. Round, leathery leaves, forming large mats from which spring many stems bearing wide fringed blossoms of violet in early spring. Very beautiful and very choice | \$1.00 | \$10.00 |
| S. pusilla. Long, slender little bells, toothed at edge, of dainty lavender on 2-inch stems. Extremely rare | 1.00 | |
| STACHYS (Woundwort). | | |
| | Each | Doz. |
| S. lanata. Handsome silvery white foliage with stalks of bloom about a foot high, purple, borne in the axils of the leaves. Very valuable for color contrast in the border and especially handsome planted with pink Canterbury Bells ... | \$0.35 | \$2.50 |
| STATICE (Sea Pink). | | |
| | Each | Doz. |
| S. Gmelini. Fine glaucous blue leaves and large panicles of dark purple blossoms. Dwarf habit. Rare | \$0.75 | \$5.00 |
| S. latifolia (Great Sea Lavender). Fine for border. Branching sprays of bloom of a purple-blue color. Fine for winter bouquets | .35 | 2.00 |
| S. limonium. Large leathery leaves with sprays of bluish purple flowers. Very handsome | .50 | 3.50 |
| S. Silver Cloud. Lovely plant for the hardy border. Branching stems with myriads of pearl-white flowers. Very useful for winter bouquets | .50 | 3.50 |
| STOKESIA (Stokes' Aster). A handsome, vigorous plant with heads of flowers about 1½ inches across, from July to September. Fine for cutting. | | |
| | Each | Doz. |
| S. cyanea. Very handsome lavender-blue flowers. Prefers full sun | \$0.35 | \$2.50 |
| S. cyanea alba. Pure white variety of the above | .35 | 2.50 |
| SYMPHYANDRA. Excellent plants for cool, moist situation in the rockery, belonging to the Bellflower family. | | |
| | Each | Doz. |
| S. pendula. A treasure for the rock garden, forming large mounds of bright green foliage and in August producing multitudes of bells of cream white of a wonderful translucent quality. Very hardy and of vigorous growth | \$0.75 | \$5.00 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

THALICTRUM (Meadow Rue). The Meadow Rues are among the most beautiful plants in the garden. Their foliage is finely cut and closely resembles the Maidenhair Fern, with blossoms of light and feathery grace. They are fine for cutting and the foliage is useful mixed in bouquets. They prefer a rich loam and rather moist position.

| | Each | Doz. |
|--|--------|--------|
| T. adiantifolium. Very beautiful with miniature white flowers through July | \$0.35 | \$2.50 |
| T. alpinum. The tiniest of the family, with delicate leaves and tiny stems of four or five inches. Flowers very inconspicuous, of a greenish white. Very rare | .75 | 7.50 |
| T. aquilegifolium (Feathered Columbine). Handsome foliage; sepals white, stamens purple. 3 feet | .35 | 2.50 |
| T. aquilegifolium atropurpureum. Graceful foliage and masses of rosy purple flowers. 3 feet | .35 | 2.50 |
| T. Chelidoni. Fernlike foliage 6 inches high. Lovely single flowers of delicate rose-lilac about an inch across with a yellow fluff of stamens. Stony soil | .75 | 7.50 |
| T. Delavayi. Bluish green foliage and lilac flowers with sulphur stamens | .50 | 4.00 |
| T. dipterocarpum. A very distinct species, with flowers of a beautiful rosy lilac and long, lemon-yellow stamens and anthers. The plant grows 4 to 5 feet high and is one of the gems of the garden | .50 | 3.50 |
| T. glaucum. Finely cut foliage and pale yellow flowers in July and August | .35 | 2.50 |
| T. minus. Very dwarf with fernlike foliage. True | .50 | 3.50 |
| T. petaloideum. Very rare and distinct. Compact tufts of aquilegia-like foliage. Ivory-white flowers on stems of about 1 foot. May and June | .75 | 7.50 |
| THYMUS (Thyme). | | |
| T. lanuginosus. Woolly foliage and bright pink flowers | .35 | 2.50 |
| T. odoratus. Lemon scented Thyme | .35 | 2.50 |
| T. serpyllum. Very desirable creeping plant for the rockery. Foliage dense, of a handsome dark green; clouds of delicate purple flowers | .35 | 2.50 |

Thymus Serpyllum.

WOLCOTTS, LTD., JACKSON, MICHIGAN

TUNICA (Coat Flower).

| | Each | Doz. |
|---|--------|--------|
| T. saxifraga. Beautiful little prostrate rockery plant with rose colored flowers | \$0.35 | \$2.50 |

TROLLIUS (Globe Flower). Beautiful spring blooming plants for damp, shady places. Very useful in the rock garden.

| | Each | Doz. |
|--|--------|--------|
| T. europaeus. Deep bronze foliage and pale yellow flowers. 2 feet | \$0.75 | \$5.00 |
| T. Golden Globe. Lovely bright yellow blossoms | .75 | 5.00 |
| T. yunnanensis. Large, clear yellow blossoms. Fine. 1 foot. | .75 | 5.00 |

VERBASCUM (Mullein). We are excluding from our Alpine plant catalog all varieties of Verbascum except those suited to the rock garden.

| | Each | Doz. |
|--|--------|--------|
| V. Chaixi. Very dainty, slender spikes of golden yellow flowers with purple eye | \$0.50 | \$3.50 |
| V. Chaixi alba. Lovely spikes of white blossoms with purple eye | .50 | 3.50 |
| V. phoeniceum. Dainty variety for rock garden or front of border. Many lovely shades of color ranging from white to pink, rose, lavender, purple, etc. 2 feet | .35 | 2.50 |

VERONICA (Speedwell). A family containing some of the most beautiful subjects for the hardy garden and rockery. Given a rich, well drained soil in an open situation in full sun, they will all thrive in an amazing manner.

| | Each | Doz. |
|--|--------|--------|
| V. gentianoides. Beautiful variety with spikes of large flowers, palest blue, edged deep blue, in June and July. 1 ft. ... | \$0.35 | \$2.50 |
| V. incana. Silvery foliage with spikes of pale blue flowers. Valuable for both rock garden and border | .35 | 2.50 |
| V. longifolia subsessilis. One of the handsomest border plants we know. Grows about 2 feet tall and from July until frost is covered with long spikes of deep blue flowers | .35 | 2.50 |
| V. multifida. Dwarf variety, especially fine for the rock garden. Foliage deeply cut, with flowers of pale blue on stems of 5 to 6 inches | .75 | 5.00 |
| V. peduncularis. A lovely variety from the Caucasus, growing about 4 inches high and producing pearly white blossoms, lined with pink | .75 | 5.00 |
| V. repens. A very attractive variety for any warm place in good soil; sun or shade. Forms sheets of soft green, smothered the summer through with very pale blue heads of bloom ... | .35 | 2.50 |
| V. rupestris. A most charming rock plant forming thick masses of deep green foliage which is smothered in June with bright blue flowers. A gem for the rock garden, dry wall or for edging the border, if raised a little above the path, as its growth is absolutely prostrate. True variety | .50 | 3.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

| | Each | Doz. |
|---|--------|--------|
| VERONICA saxatilis. One of the choicest for rock garden. Splendid foliage of deep, shining green with intense azure-blue flowers | \$0.75 | \$7.50 |
| V. teucrium, Royal Blue. Very desirable variety for the rock garden as it is of trailing growth and covered with deep blue flowers in June | .35 | 2.50 |
| V. Traversi. A very hardy variety of the beautiful shrubby Veronics from New Zealand. Forms compact bushes of dark green foliage, bearing a profusion of pale mauve blossoms in late summer | 1.00 | |
| VIOLA (Tufted Pansy). The Bedding Viola is not as well known in America as it should be, for it is perfectly hardy in well drained soil and a most profuse bloomer from early spring until fall. It needs deep, well enriched soil and considerable sun, with plenty of water. Ideal for carpeting rose beds. The colors are varied, as in Pansies, but much more refined and only need to be grown to be appreciated. Do not allow to seed, as it will stop the bloom. Early in September cut back all straggling growth, when the plant will make new tufts. | | |
| | Each | Doz. |
| V. Ariel. Mauve, beautifully shaded with white | \$0.50 | \$5.00 |
| V. Apricot. A gem, having the growth of the bedding Viola and producing profusely, all summer through, large blossoms of true apricot-yellow | .50 | 5.00 |
| V. Blanche. Creamy white; very large | .50 | 5.00 |
| V. Blue Gown. Blue, tinted mauve | .50 | 5.00 |
| V. Councillor Waters. Crimson-purple | .50 | 5.00 |
| V. Gen. Baden-Powell. Orange, very large | .50 | 5.00 |
| V. James Pilling. Pure white with lavender margin..... | .50 | 5.00 |
| V. John Forbes. Violet, shading to rich rose | .50 | 5.00 |
| V. Kitty Bell. Lavender. Very refined | .50 | 5.00 |
| V. Maggie Mott. Soft mauve, free flowering. Fine | .50 | 5.00 |
| V. Moseley Perfection. Deep yellow; large and grand | .50 | 5.00 |
| V. Snowflake. Snowy white; very large | .50 | 5.00 |
| V. Wm. Neil. Rose. Very pleasing | .50 | 5.00 |
| V. William Robb. Lavender. Very free | .50 | 5.00 |
| VIOLA CORNUTA (Horned Violet). One of the parents of the tufted pansy and much grown as an edging for beds and borders. It is a Pyrenean species and of dwarf, tufted habit. | | |
| | Each | Doz. |
| V. Jersey Gem. A new and very desirable variety. Large violet blossoms on 6-inch stems | \$0.50 | \$3.50 |
| V. lutea splendens. Rich golden yellow | .25 | 2.00 |
| V. Mauve Queen. Reddish violet. Very fine | .25 | 2.00 |
| V. Papilio. Violet, dark eye | .25 | 2.00 |
| V. Blue Perfection. Very deep blue | .25 | 2.00 |
| V. White Perfection. Lovely pure white | .25 | 2.00 |

VIOLA GRACILIS (Olympian Violet). A lovely Grecian species on the order of the Violetta. Planted in masses in an open position on the rockery, they will rapidly cover the ground with dark green foliage that is covered throughout the spring and summer with their dainty blossoms.

| | Each | Doz. |
|--|--------|--------|
| V. bosniaca . A perfect gem from Bosnia, with quantities of rose colored flowers. Resembles gracilis in habit. True variety.. | \$0.75 | \$5.00 |
| V. calcarata . The most popular Alpine Viola. Makes a riot of color in June. Blue flowers with yellow eye | .50 | 3.50 |
| V. cenisia . Lovely purple Viola, penciled black. Very choice high Alpine | .75 | 5.00 |
| V. gracilis . Intense violet flowers. A fine rock plant | .35 | 2.50 |
| V. gracilis, Lord Nelson . New. The most perpetual Viola in cultivation. Flowers of a glowing violet-purple, erect, on long stems. Very desirable rock plant | .50 | 3.50 |
| V. hederacea (Erpetion Reniforme). Fine creeping plant forming tufts of leaves close to the ground. Small violet and white blossoms, like a baby Viola. A gem for the rockery .. | .50 | 3.50 |
| V. pinnata . A rare treasure for the rock garden, growing easily in any well drained situation. Rosy lavender blossoms on stems of 2 to 3 inches. The only Viola with divided foliage | .50 | 3.50 |

Viola Lutea Splendens.

Choice Dwarf Evergreens

—Suitable for the Alpine Garden

In the planting of Alpine Gardens, the fact should always be kept in mind that Evergreens are a most important part of the garden scheme.

The very name of Alpine Garden suggests the high altitude of the snowy Alps with the deep gorges and ravines clothed in the warm, fragrant, ever beautiful Pines.

It is, of course, impossible to use the same varieties of large Evergreens in the man-made garden of infinitely smaller proportions. However, the dwarf types of conifers readily lend themselves to the smaller scale of their surroundings and are at home among the rocks, where they are vitally essential in producing the effect of distance and depth, so necessary in making a naturalistic picture.

These Evergreens are all thrifty stock and heavily rooted and have been several times transplanted. They are all splendidly balled and burlapped, the work being done by our own experts.

B&B indicates Balled & Burlapped. Each X indicates one transplanting.

JUNIPERUS (Juniper). A large family of evergreens comprising some of the most beautiful as well as useful types. Nearly all are suitable for the rock garden.

J. communis aurea (Golden Prostrate Juniper). Brilliant golden foliage.

| | | | Each | 10 |
|----------|------------|----------|--------|---------|
| 1 1/2-2 | ft. spread | XX B&B | \$3.00 | \$27.50 |

WOLCOTTS, LTD., JACKSON, MICHIGAN

JUNIPERUS scopulorum (Colorado Juniper). Silvery color and close, symmetrical, upright growth. Excellent for rock garden, as it does not grow much over 15 feet in height.

| | | Each | 10 |
|----|----------------------|--------|---------|
| 2 | -2½ ft. XX B&B | \$2.00 | \$17.50 |
| 2½ | -3 ft. XX B&B | 2.50 | 22.50 |
| 3 | -3½ ft. XX B&B | 3.50 | 32.50 |
| 3½ | -4 ft. XXX B&B | 4.50 | 42.50 |
| 4 | -5 ft. XXX B&B | 7.00 | 65.00 |

J. squamata Meyeri (Meyer Juniper). A new introduction of great merit. Foliage blue-green with iridescent hues. Growth low, spreading and very dense. Fine for rock garden.

| | | |
|-----------|------------------|------|
| 12-18 in. | spread B&B | 4.00 |
| 18-24 in. | spread B&B | 6.00 |

J. virginiana (Red Cedar). Tall, slender growth. Grows naturally in gravelly hillsides. Bright green in spring darkening during summer. Tips take on a pinkish cast in winter.

| | | | |
|----|----------------------|------|-------|
| 2 | -2½ ft. XX B&B | 1.75 | 15.00 |
| 2½ | -3 ft. XX B&B | 2.00 | 17.50 |
| 3 | -4 ft. XXX B&B | 4.50 | 42.50 |

J. virginiana argentea (Silver Juniper). Growth as above but young shoots and small leaves are very silvery.

| | | | |
|----|-----------------------|------|-------|
| 12 | -18 in. XX B&B | 1.25 | 10.00 |
| 18 | -24 in. XX B&B | 2.00 | 17.50 |
| 2 | -2½ ft. XXX B&B | 2.50 | 22.50 |
| 2½ | -3 ft. XXX B&B | 3.00 | 27.50 |
| 3 | -4 ft. XXXX B&B | 4.00 | 37.50 |
| 4 | -5 ft. XXXX B&B | 6.00 | 55.00 |

J. virginiana Cannarti (Cannart Red Cedar). One of the finest varieties. Deep green foliage heavily tufted. Not as pyramidal in growth as some of the other Junipers, but can be trimmed as desired.

| | | | |
|----|-----------------------|-------|-------|
| 1½ | -2 ft. XX B&B | 2.50 | 22.50 |
| 2½ | -3 ft. XXX B&B | 5.00 | 47.50 |
| 3 | -4 ft. XXX B&B | 6.25 | 60.00 |
